

## To stop tutorial videos from running every time Datatel is launched.

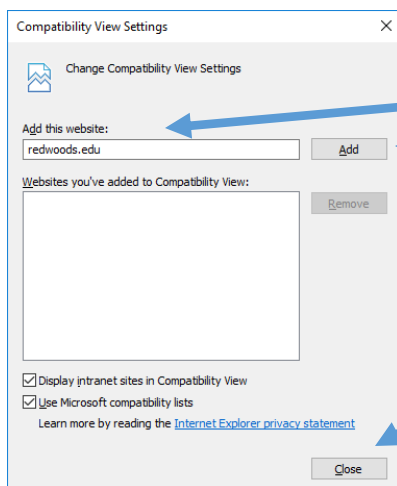

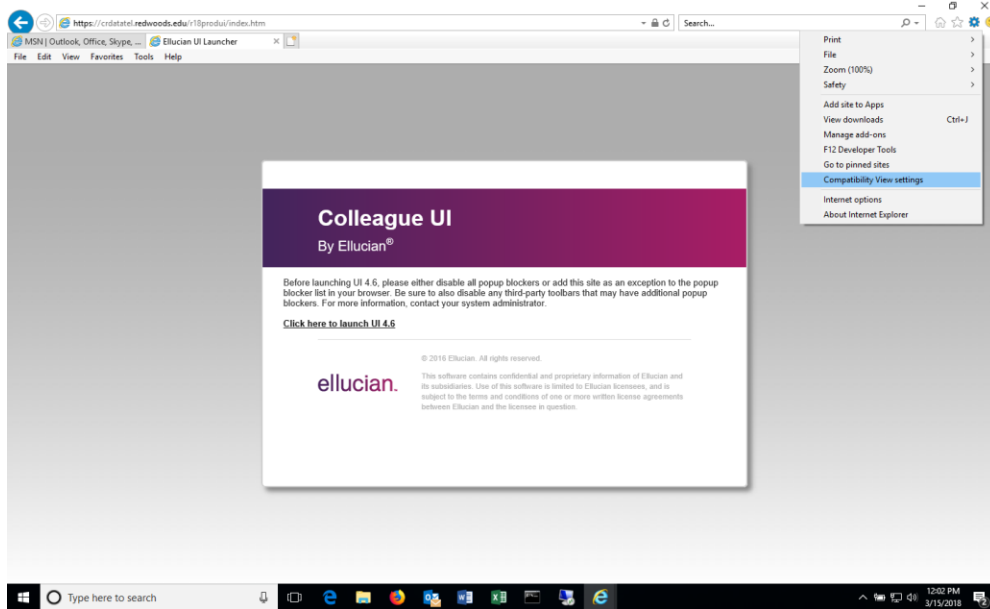

From Internet Explorer 11... Go to the Datatel login screen. Do not log in.

You will know you are in Internet Explorer if you see the smiley face in the upper right corner.

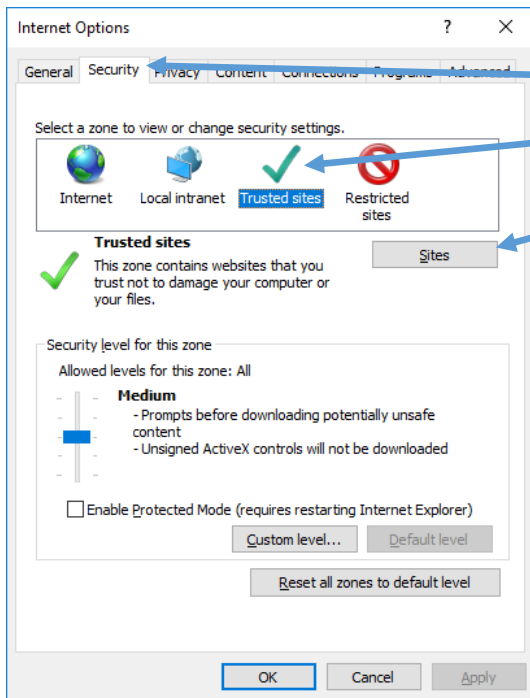

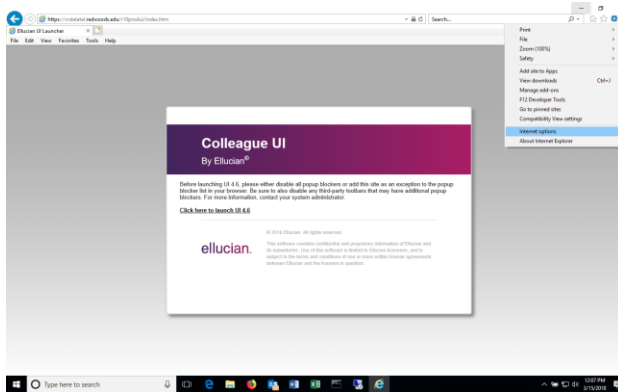

Click on the Gear and go to Compatibility View Settings.

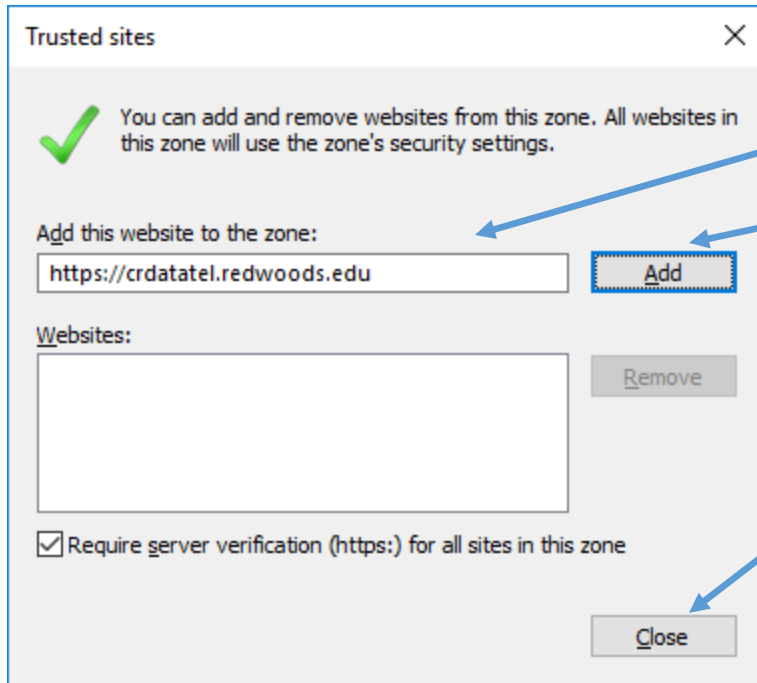

Make sure redwoods.edu is in the "Add this website" box.  
Click Add to add redwoods.edu to compatibility view.  
Then click "Close"

After you have done that, go back to the gear and select Internet Options.

Click on the "Security" Tab, and then select "Trusted Sites".

Click the "Sites" button.

You should see <https://crdatatel.redwoods.edu> in the add this website box.

Click on Add and then Close.

Restart your browser and you should be good to go.
