- Faculty wanted to point out that online can only be offered if the remote is available and there was an interest to state that someone on the COR.
 - Where in the COR would something like this need to be documented? There was discussion that this could possibly live under equipment and the Curriculum Committee will discuss this in a future meeting.
- Are there other examples when the space is part of the learning condition.

- A survey of current students indicates most students are working fully time, so they will only be taking classes part-time. The recommended sequence doesn't seem to pose an issues for the FNR students.
