

Office of Instruction and Student Development Update 12/3/2016

Program Creation, Revitalization, or Discontinuation

Administrative Procedure (AP) [4021 Program Revitalization or Discontinuation Process](#) has been used several times in recent years. The procedure guides the college to make important decisions using shared governance and careful planning. Lesser known [AP 4020 Program and curriculum Development](#) also exists for the same purpose, but has not been used in practice until now. Careful planning and involvement of all constituent groups is as important in the development of new programs as it is when considering existing programs.

AP 4020 task forces in progress or in que for new programs:

- Pre-Nursing Associate of Science or Arts
- Police Academy Associate of Science
- Associate Degree for Transfer in Biology

AP 4021 task forces in progress or in que for revitalization or discontinuation:

- Non-credit
- Digital Media
- Restaurant and Hospitality Management (re-evaluation)

Dates to Remember

December 23, 2016 Grades are due
January 4, 2017 Students are deregistered for non-payment
January 25, Emergency drill from 1:15 – 1:45 pm

CR looking for new Student Health Center provider

You may have heard the news that **Redwoods Family Practice**, a health care provider in Eureka, announced that it will **close at the end of the year** after 42 years of service. Not only would this be a significant loss to our community, it directly impacts the college. CR's Student Health Center has been able to run through a partnership with Redwoods Family Practice. Since the announcement, Dean of Students Joe Hash is acting quickly to identify and begin meeting with new potential partners, including the Humboldt Independent Practice Association. All possible steps are being taken to maintain services to CR students and employees.

The student health center offers services including:

- Minor medical care (e.g., upper respiratory infections, blood pressure screenings)
- Physical exams required for classes
- Immunization and testing (e.g., Hepatitis B, flu shots)
- Health promotion (e.g., stress management)
- Planned Parenthood visits to accept patients at the student health center every Thursday in the fall & spring.

What should CR look like in 2026?

I've had the pleasure of hearing faculty, staff, and community members answer this question over a series of five **visioning sessions** in Hoopa, Crescent City, and Eureka. Qualitative feedback was recorded and is being analyzed for themes. Although this analysis has just begun, I heard several common goals that emerged at all of the sessions. Each session was **led by a member of the Board of Trustees** who then hosted a table and identified and reported on key visioning ideas. The Board of Trustees will roll out a draft Vision next semester.

New faculty recruitments

The recruitment process is getting started for full-time faculty to being next year for the following positions:

- Three Mathematics for Eureka
- Registered Nursing (RN) for Eureka
- Communication Studies for Eureka
- Construction Technology for Eureka
- EOPS-CARE Counselor for Eureka

Fast Fact

CR currently offers 41 Associate Degrees and 23 Certificates of Achievement.
