Course Description:

This course is a continuation of BUS-1A with emphasis on managerial accounting. The statement of cash flows and methods to analyze financial statements are emphasized. Control accounting includes cost systems, budgetary control, and standard cost systems. Managerial decision-making considers cost, revenue concepts, and preparation of reports and special analysis.

Course Learning Outcomes:

Upon successful completion of this course (grade of C or above), students will be able to do the following:

1. Explain and apply corporate accounting standards to investments, stocks, and bonds.
2. Explain and apply standard cost accounting methods.
3. Explain and apply methods of budgetary control.
4. Construct and analyze financial statements and ratios.

Course Objectives & Structure:

Accounting is the common language of organizations: businesses, not-for-profits, or governments. The basic principles of accounting provide a common ground for communication. The objective of this course is for you to learn, understand and to apply those basic principles. In addition to specific accounting curriculum objectives identified in the Course Outline, broad course objectives include the development of learning, thinking, communication and teamwork skills. In accounting, new concepts build on those that have been learned before. Therefore, it is essential you keep current in this course. You will be required to communicate your knowledge clearly by completing assignments and assessments.

Evaluation & Assignments:

13 Homework Assignments (10 best scores graded): $10 \times 25 = 250$ points

13 Projects (10 best scores graded): $10 \times 25 = 250$ points

2 Tests: $2 \times 250 = 500$ points

Total Semester Points: 1,000

Policy for missed/late work

Homework Assignments and Projects cannot be turned in late. If you are unable to attend class, turn in any work that is due electronically. Exceptions may be made in cases of emergency or if arrangements are made in advance.
