Academic Honesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty (such as cheating, plagiarism, collusion, abuse of resource materials, computer misuse, fabrication or falsification, complicity in academic misconduct and/or bearing false witness), determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee.

The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at: www.redwoods.edu/district/board/new/chapter5/documents/AP5500StudentConductCodeandDisciplinaryProceduresrev1.pdf

Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

Disruptive Classroom Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process a disruptive student may be temporarily removed from class. In addition, he or she may be reported to the Chief Student Services Officer or designee.

Organization of Course

Class Participation

Students are expected to attend all lectures, as attendance is required. Participation is a critical part of the learning process and is closely associated with attendance. Lack of participation and excessive absences will jeopardize the status of the student in that course objectives may not be met. CR has an excessive absence policy. For this reason, your attendance will affect your grade as follows: Students missing more than four consecutive class sessions without notifying the instructor will be dropped from the course through the 10th week of the semester.

The only exception to this policy is for an emergency. In that case, you need to notify me in **advance** that you will be unable to attend class.

Teaching/Learning Methodologies

Student participation is critical to the overall success of the class. Active involvement in the learning process is essential. Instructors serve as facilitators of learning and engage students in a variety of activities to promote the acquisition of communication skills. Reading course materials is essential to achieving subject matter mastery, and students should come to class prepared.

Though lecture is an important element of the classroom experience, additional participative activities (e.g. discussion, reflection and application) enhance the learning process. Each member of the class, instructor and student alike, is responsible for creating an effective and enjoyable learning environment.

Note: If you are having difficulty with course content or assignments, please make an appointment with your instructor immediately.

Students with special needs will be accommodated. Please let your instructor know about any special needs that you may have and contact College of the Redwoods' Disabled Student Programs and Services (DSPS) at 707-476-4280 for information and assistance with support services.
