Accounting is the common language of organizations: businesses, not-for-profits, or governments. The basic principles of accounting provide a common ground for communication. The objective of this course is for you to learn, understand and to apply those basic principles. In addition to specific accounting curriculum objectives identified in the Course Outline, broad course objectives include the development of learning, thinking, communication and teamwork skills. In accounting, new concepts build on those that have been learned before. Therefore, it is essential you keep current in this course.
