"Society is like this card game here, cousin. We got dealt our hand before we were even born, and as we grow we have to play as best as we can." –Louise Erdrich, *Love Medicine*

What You Will Need

- ✓ *The American Indian and Alaska Native student's Guide to College Success* by M. Pavel & E. Inglebret (2007).
- ✓ 3 ring-binder with tabbed separators
- ✓ Notebook paper
- ✓ Pens, pencils, highlighters
- ✓ Calendar/appointment book

Course Overview

This is a first year experience course focusing on the development of academic and personal skills necessary to succeed in college and beyond. This course aims to primarily assist students in the transition between high school and college level expectations. Topics covered will be self-efficacy, time management, classroom dynamics, introductory academic skills enhancement, institutional campus services and technology used in higher education.

What You Will Learn (Course Learning Outcomes—CLOs)

By the end of our time together, you should have completed the following objectives:

7. Examine and evaluate different learning preferences and how these concepts of self-discovery may be applied to improve lifelong learning.
 - Identify personal strengths, roles, responsibilities, and contributions to the community
8. Demonstrate successful navigation within the college system.
 - Utilize the internet to locate academic resources
 - Locate and utilize student support services
 - Access information about 4 year institutions, tribal colleges, and community colleges
9. Differentiate between the high school and college learning environment (as well as the differences between Native worldviews, learning styles, and those in academia)
 - Understand the educational history of Native Americans
 - Recognize worldview and epistemology and how these impact our experience in higher education

10. Define and demonstrate active learning with response to oral and written assignments.
 - Identify and learn from college graduates within the community
 - Demonstrate academic skills (classroom etiquette, note taking, time management, study strategies, planning)
 - Apply problem solving and critical thinking skills
 11. Complete a formal educational plan
 12. Increase self-motivation
-

How You Will Be Graded:

| | |
|-----------------------------------|-----|
| Attendance & Participation | 20% |
| Assignments & Journal | 30% |
| Interview Project | 20% |
| Educational Plan & Personal Essay | 20% |
| Midterm & Final Exams | 10% |

Course Focus

This course will address important features of college success that are centered in the worldviews, concepts, and traditions that are valuable within our communities. Through personal research, writing, and sharing, students will better understand how to make higher learning work for them. To do this, students will identify and interview mentors within the community, recognize personal strengths and gifts, and distinguish their potential contributions to the community. Students will also practice applying key academic skills such as learning effective study strategies and using problem-solving and critical thinking, reading, and writing skills. Course assignments, readings, and projects are designed to enable students to uncover their natural love of learning and to understand the importance of higher education in their lives and the lives of their communities.

Grading:

| | | |
|-------------|-------------|-------------|
| A (93-100%) | A- (90-92%) | |
| B+ (87-89%) | B (83-86%) | B- (80-82%) |
| C+ (77-79%) | C (70-76%) | |
| D (69-60%) | | |

Special Needs

Please let me know as soon as possible if you have any learning needs so that I can make whatever accommodations necessary to help you be successful in this class. Students with learning disabilities may be eligible for additional assistance through student services: please contact Melissa Ruiz at the Disabled Student Programs and Services (625-4846). Also, don't forget that I am available during my office hours.

Attendance & Participation

One of the most important things you can do to ensure success in this class is to come and be engaged. When you miss a class, contact me by email or phone and let me know what is happening. Also, I encourage each of you to find someone in class who you can turn to for assignments or missed activities and discussion notes. **Any time you miss a class, it is up to you to find out what you missed. Please note that attending and participating in each class session is worth ten points (each day) and is 20% of your final grade.** To receive the ten points, you must be on time and involved with the day's learning. Please also keep in mind that CR's attendance policy requires students to attend 85% of class time. For our class, this equates to being able to miss no more than 2.5 classes.

Class Structure & Activities

Almost all of our classes will consist of collaborative learning—sharing our experiences and knowledge, teaching each other, and learning together. We will have open discussions, group activities, workshops, and presentations from members of our communities, which will require us to learn how to respectfully address issues with others. Being an active learner will require that you complete a variety of classroom activities.

Major Assignments You Will Complete

Interview Project

Students will identify a college graduate in the community, develop interview questions (i.e. How has your college degree helped you to contribute to the community? What made your success in college possible?), interview the college graduate, write a profile of the successful college student, and present the profile to the class. I will provide you with more specific instructions with due dates and a rubric during the third week of class.

Educational Plan and Personal Essay

Each of you will prepare an educational plan and personal essay that will include your strengths, goals, and the steps you intend to take in order to reach these goals. Handouts with further instructions, due dates, and a rubric will be given to you during the ninth week of class.

Midterm & Final Exams

You will have a Midterm Exam (25 pts) during week eight and a Final Exam (50 pts) during finals week. Both exams will consist of multiple choice, fill-in-the-blank, short answer, and essay questions. Remember, exams are a way for the instructor to assess your learning and understanding of class materials. We will be practicing different study and test-taking strategies before each exam.

A Healthy Learning Environment

**CR's Academic
Misconduct Policy states
that**

Cheating, plagiarism, collusion, abuse of resource materials, computer misuse, fabrication or falsification, multiple submissions, complicity in academic misconduct, and/or bearing false witness will not be tolerated. Violations will be dealt with according to the procedures and sanctions proscribed by the College of the Redwoods. Students caught plagiarizing or cheating on exams will receive an "F" in the course.

MyCR

Each day, I update information on MyCR. Through MyCR you can access your grades, assignments, due dates, as well as resources and links. This is also a great way to contact me or other students in the class. With access to MyCR, there should be no reason you are not up-to-date on assignments, even when you are absent. I will show you how to log in and use MyCR during the first two weeks of class.

Topics Schedule

| | |
|---------------|---|
| Week 1 | Introduction, Course Syllabus & Requirements Worldview Differences History of Indian Education |
| Week 2 | History of Indian Ed. Continued Finding Purpose Active Reading Strategies Note-taking Strategies |
