Course Description

GS 6 is a first year experience course focusing on the development of academic and personal skills necessary to succeed in college and beyond. Students will learn how to manage time, understand classroom dynamics, and improve note-taking and test-taking skills. Students will be able to identify campus services and understand the technology used in higher education. Students will be directed towards specific educational goals and develop a comprehensive student education plan.

Student Learning Outcomes

5. Write due dates on a calendar.

Getting Help

Most questions can be answered by looking closely in Canvas. If you can’t find your answer in Canvas, then the Canvas Inbox is the best method for contacting the instructor. Email works too, but Canvas Inbox is preferred. There is a “Q&A” discussion forum where you can ask (and answer) a question. You may also leave a message on the instructor’s cell phone or on office hours, Tuesdays 9-11. I will get back to you either electronically or by phone as soon as I can. When leaving a voice mail, please leave your name, message, phone number, and which class you are in.

Student Commitment

This three-unit class requires about 9+ hours per week of your time. You will regularly log in and post to the discussion forums, carefully read textbook chapters and complete the required/recommended preparation. You will view TedTalks and various websites, write and submit journal entries and study plans, and complete a student education plan. Class attendance, conscientiousness, attention to details, reading, writing, and study skills are critical for success.

Withdrawing From This Course

Students may withdraw themselves and instructors (AP 5075) are allowed to withdraw students from class for non-participation or excessive absences through the 10th week of class. The instructor will drop students on census date who do not have a passing grade at that point. There are no exceptions. I highly recommend that you drop yourself before the census date or before the final drop date to avoid having a non-passing grade on your transcripts and on your GPA. If you choose to drop this course, use [Web Advisor](#) or [Admissions & Records](#). Be sure to check with admissions if you are considering withdrawing after census so that you will possibly receive a refund.

Regular Instructor Contact

The instructor dedicates as much or more time to this class compared to a traditional face-to-face class. April will access the class website regularly and respond to email and the Canvas inbox typically within 48 hours. Should a situation arise when she cannot access Canvas or reply to email within that time frame, she will notify the class in an announcement, then will announce when she's returned.

General questions (analogous to raising a hand in class) are posted in the Discussions section in the "Q & A" forum. I read every discussion forum post and occasionally participate. There are weekly announcements, lectures, emails/messages to students who fall behind, and instructor/publisher created materials to create a virtual equivalent of face-to-face classes.

Using the Canvas Inbox

The Canvas Inbox is best way to contact the instructor. Click on the "Inbox" link on the left dark grey bar to view your Canvas email. Click on the person icon in the "To:" address bar. Choose the course, student or teacher, and then the person that you would like to email. Click on this course, and for teacher choose my name, April Klingonsmith. Type a message in the message area and click send.
