Syllabus for Math 15 Statistics— Eureka Campus			
Semester & Year	Spring 2016		
Course ID and Section #	Math 15-E9118		
Instructor's Name	Michelle Moreno		
Day/Time	MWTh 2:50-4:05		
Location	SC 208		
<b>Number of Credits/Units</b>	4		
Contact Information	Office hours	By appointment	
	Email address	michelle-moreno@redwoods.edu	
		moreno.cr.math@gmail.com	
	Twitter	@MorenoMath	
	Course Home	https://redwoods.instructure.com	
Textbook Information	Title & Edition	Interactive Statistics, 3 <sup>rd</sup> ed.	
	Author	Aliga & Gunderson	
	ISBN	0-13-149756-1	

# **Course Description**

The study of statistical methods as applied to descriptive statistics and inferential statistics. An emphasis on the meaning and use of statistical significance will be central to the course. Students will use frequency distributions, graphs, measures of relative standing, measures of central tendency, measures of variability, correlation, and linear regression to explore descriptive statistics. Students will use the laws of probability and statistical tests (t-tests, chi-square, ANOVA, and regression analysis) to make decisions via hypothesis testing and estimate parameters using confidence intervals.

#### **Student Learning Outcomes**

- 1. Accurately communicate statistical ideas using correct statistical notation, graphs, and vocabulary.
- 2. Use descriptive and inferential statistics to solve real-world problems.
- 3. Demonstrate appropriate use of technology in making decisions based upon real-world data.
- 4. Read and interpret information that contains statistical analysis and be able to communicate these results.
- 5. Judge the validity of research reported in the mass media and peer reviewed journals.

## **Special Accommodations**

College of the Redwoods complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities. Please present your written accommodation request at least one week before the first test so that necessary arrangements can be made. No last-minute arrangements or post-test adjustments will be made. If you have a disability or believe you might benefit from disability related services and may need accommodations, please see me or contact <a href="Disabled Students Programs and Services">Disabled Students Programs and Services</a>. Students may make requests for alternative media by contacting DSPS at 707-476-4280.

#### **Academic Support**

Academic support is available at <u>Counseling and Advising</u> and includes academic advising and educational planning, <u>Academic Support Center</u> for tutoring and proctored tests, and <u>Extended</u> <u>Opportunity Programs & Services</u>, for eligible students, with advising, assistance, tutoring, and more.

## **Academic Honesty**

Syllabus Page 1 of 5

# Syllabus for Math 15 Statistics— Eureka Campus

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at:

www.redwoods.edu/district/board/new/chapter5/documents/AP5500StudentConductCodeandDisciplinaryProcedure srev1.pdf Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

# **Disruptive Classroom Behavior**

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process a disruptive student may be temporarily removed from class. In addition, he or she may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at:

 $\underline{www.redwoods.edu/district/board/new/chapter5/documents/AP5500StudentConductCodeandDisciplinaryProcedures rev1.pdf$ 

Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

#### **Emergency Procedures for the Eureka campus:**

Please review the campus evacuation sites, including the closest site to this classroom (posted by the exit of each room). The Eureka **campus emergency map** is available at:

(<u>http://www.redwoods.edu/Eureka/campus-maps/EurekaMap\_emergency.pdf</u>). For more information on Public Safety, go to <u>http://redwoods.edu/safety/</u> In an emergency that requires an evacuation of the building:

- Be aware of all marked exits from your area and building.
- Once outside, move to the nearest evacuation point outside your building:
- Keep streets and walkways clear for emergency vehicles and personnel.
- Do not leave campus, unless it has been deemed safe by the Incident Commander or campus authorities. (CR's lower parking lot and Tompkins Hill Rd are within the Tsunami Zone.)

RAVE – College of the Redwoods has implemented an emergency alert system. In the event of an emergency on campus you can receive an alert through your personal email and/or phones at your home, office, and cell. Registration is necessary in order to receive emergency alerts. Please go to <a href="https://www.GetRave.com/login/Redwoods">https://www.GetRave.com/login/Redwoods</a> and use the "Register" button on the top right portion of the registration page to create an account. During the registration process you can elect to add additional information, such as office phone, home phone, cell phone, and personal email. Please use your CR email address as your primary Registration Email. Your CR email address ends with "redwoods.edu." Please contact Public Safety at 707-476-4112 or <a href="security@redwoods.edu">security@redwoods.edu</a> if you have any questions.

Check here for updates and what was covered in class each day.

Recommended Preparation: English 150

Required Materials: Interactive Statistics, 3<sup>rd</sup>. ed by Aliaga & Gunderson

ISBN: 0-13-149756-1

TI-83/84 calculator.

Course Objectives: This is an introductory course to the science of statistics. Statistics is about making sense out of data. At the most basic level statistics is how to organize data. At the other end of the spectrum is inferential statistics where you make decisions/inferences based upon the data. There are two primary goals for this course:

- 1. Properly collect and analyze a set of data.
- 2. Critically examine statistical information presented both in the media and in peer-reviewed journals.

To be successful in this course you must do the following:

- 1. Attend class AND participate.
- 2. Complete the homework assignments to the best of your ability BEFORE class. I will provide assistance but you will not learn if you do not first attempt the assignments on your own.
- 3. Do NOT procrastinate. You will have three take-home exams and several weeks to work on them. If you procrastinate you will miss out the purpose of the exams.
- 4. Be prepared to take a short quiz each week. You may or may not have notice of when quizzes will be given or what they will cover. I am interested in what you know, not what you crammed for.
- 5. Do NOT be distracted by text messages, phone calls, Facebook, etc. Your success depends on you being focused while in class.

Exams: You will have three take-home exams and will have several weeks to complete each one. Do NOT procrastinate! The semester will conclude with a mandatory Final Exam that will be taken in class during the assigned final exam time for this section.

Syllabus Page 3 of 5

**Exam 1**: Analysis of the book, *How to Lie With Statistics* by Darrell Huff. Details are in the Assignments section in Canvas.

**Exam 2**: Analysis of media vs. science. You will assess the validity of a media article and compare to the actual scientific study the media piece is based on. Details for this exam will be in the Assignments in Canvas after Exam 1 is completed.

**Exam 3**: Data collection and analysis project. For this exam you will have the opportunity to design your own study, which will include data collection and analysis. Details for the exam will be in the Assignments in Canvas after Exam 2 is completed.

**Final Exam**: Monday May 9, 2016 3:15-5:15. The final will ONLY be given at this time. Final Exam questions are available in the Files section in Canvas.

**Grading:** Your overall grade will be waited as follows:

Homework	15%
Quizzes	10%
Exam 1	15%
Exam 2	15%
Exam 3	15%
Final Exam	30%

Rounding up to the next grade will be considered for each student and the decision will be based on effort, attitude, and attendance.

**Time**: Like all math classes, this class will require a great deal of your time. Make sure that you stay organized, make a schedule, and stick to the deadlines.

**Classroom Conduct**: It is imperative that the instructor and each student are treated with respect. Students should feel free to ask questions without being ridiculed. Respect each other!

# **Faculty Initiated Drop:**

- 1. Students missing the first day of class, Tuesday January 19 WILL be dropped.
- 2. Students displaying poor attendance/performance during the first two weeks of the term MAY be dropped on Feb. 1. If your intention is to drop you should do so do not expect me to do it for you.
- 3. It is the policy of the College of the Redwoods Math Department to exercise a "Faculty Withdrawal" for any student who has missed more than 15% of the class

Syllabus Page 4 of 5

meeting time (prior to the drop deadline of April 1), due to the severely diminished likelihood of a successful outcome in the course. Again, I may or may not exercise this option and so if your intention is to withdraw from the course you should do so yourself - do not expect me to do it for you.
