

Syllabus for: Math 276 – Prealgebra	
Semester & Year:	Spring 2016
Course ID and Section Number:	MATH-276-E9141
Number of Credits/Units:	0
Day/Time:	M, W 6:05-8:10
Location:	SC 214
Instructor's Name:	Ward Nickle
Contact Information:	Office location and hours: SC 214 before class Phone: Email: ward-nickle@redwoods.edu
Course Description: A comprehensive review of arithmetic involving whole numbers, fractions, decimals, and signed numbers. Students will solve problems involving ratios, proportions, percentages and geometry. Basic algebra concepts and techniques such as, variables, simplifying expressions, solving equations and graphing linear equations will also be introduced. Problem solving, estimation and the communication of mathematical ideas are an integral part of the course.	
Student Learning Outcomes:	
<ol style="list-style-type: none"> 1. Evaluate and simplify numerical and algebraic expressions involving integers and rational numbers. 2. Solve linear equations. 3. Write linear equations for word problems and solve. 	
Special accommodations: College of the Redwoods complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities. Please present your written accommodation request at least one week before the first test so that necessary arrangements can be made. No last-minute arrangements or post-test adjustments will be made. If you have a disability or believe you might benefit from disability related services and may need accommodations, please see me or contact Disabled Students Programs and Services. Students may make requests for alternative media by contacting DSPS.	
Academic Misconduct: Cheating, plagiarism, collusion, abuse of resource materials, computer misuse, fabrication or falsification, multiple submissions, complicity in academic misconduct, and/ or bearing false witness will not be tolerated. Violations will be dealt with according to the procedures and sanctions proscribed by the College of the Redwoods. Students caught plagiarizing or cheating on exams will receive an "F" in the course.	
<p>The student code of conduct is available on the College of the Redwoods website at: http://redwoods.edu/District/Board/New/Chapter5/AP%205500%20Conduct%20Code%20final%2002-07-2012.pdf</p>	
Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods homepage.	
College of the Redwoods is committed to equal opportunity in employment, admission to the college, and in the conduct of all of its programs and activities.	

At College of the Redwoods, Math 376 is the course number for our Prealgebra course. This course is designed to provide a review of arithmetic and a first introduction to the study of algebra.

Prerequisites

Grade of C or better in Math 372 (College Arithmetic) or equivalent, or an appropriate score on the math placement exam.

Textbook

The latest version of the textbook is available online at:

<http://mathrev.redwoods.edu/PreAlgText/>

Assignments

Homework problems will be assigned each lecture period and will be due before the next class meeting. For example, an assignment given on Monday is due Wednesday before class.

The assignments will take a great deal of time, so I recommend you start working on them as soon after class as possible. This way you will have plenty of time to ask for help. Set aside 2 hours/day, 4 days/week to do assignments. Set yourself up to succeed; do a little bit at a time.

There is no extra credit in this course.

Quizzes

There will be a quiz about every week. The quizzes will be taken online. The lowest quiz score will be dropped at the end of the semester. Quizzes cannot be retaken or made up.

Exams

There will be two exams during the semester, in class, plus a cumulative final. Exams cannot be retaken or made up.

Grading

Homework	20%
Quizzes	20%
Exam I	15%
Exam II	15%
Final Exam	30%
Total	100%

A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	0-59%

The above grading rubric serves as a guideline. Your final course grade and +/- are determined at the discretion of your instructor.

Please feel free to ask questions in class or you can go to the Math Lab in the library. It should be open roughly M-F, 9-5.

Class Expectations

You are expected to arrive on time and to leave when the class is dismissed. Arriving late or leaving the class before being dismissed is disruptive to your fellow students and extremely disrespectful to your instructor. If you must miss a day, please check with a classmate to see what you missed. I expect you to be a responsible, respectful, and courteous member of the class. If you find that you cannot abide by these rules, then you are in the wrong class and I will ask you to transfer to another class. You are more than welcome to come to my office hours for help, but please do not come to my office hours for a private lesson because you did not feel like going to class.

This syllabus is subject to change at any moment.

Any changes will be announced in class. If you are absent, it is your responsibility to check with other students in the class, so it behooves you to get to know a few classmates.
