

Syllabus for Math 102-E0298 Pathway to Statistics – Eureka Campus

Semester & Year	Fall 2016	
Course ID and Section #	Math 102 (E0298)	
Instructor's Name	Phil Zastrow	
Day/Time	MW 11:40-2:10pm and 3:00-4:25pm	
Location	SC208	
Number of Credits/Units	6 units (5 units lecture and 1 unit lab)	
Contact Information	<i>Office location</i>	TBA
	<i>Office hours</i>	TBA
	<i>Phone number</i>	None
	<i>Email address</i>	phil-zastrow@redwoods.edu
Textbook Information	<i>Title & Edition</i>	Outliers: The Story of Success
	<i>Author</i>	Malcolm Gladwell
	<i>ISBN</i>	0316017930 (10); 978--0316017930 (13)

Course Description A course designed to be a nontraditional, accelerated pathway to transfer-level statistics. Topics in algebra, data analysis and critical thinking skills relevant for success in statistics are the focus. The learning experience for this course emphasizes active learning via collaborative work. This course is designed for students who plan to major in fields such as biology, social sciences, nursing, art, and English, and not for students pursuing degrees in math, engineering, computer science, business or economics.

Note: Math 102 may be taken for a Letter Grade or you can file for the Pass/NoPass option (before Sep 23rd).

Student Learning Outcomes

1. Formulate questions that can be addressed with data, then organize, display, and analyze relevant data to answer these questions and communicate results.
2. Use the properties of algebra to simplify expressions, solve equations and answer questions in context.
3. Construct, use, and interpret mathematical models, specifically linear and exponential functions, to represent relationships in quantitative data.

Special Accommodations

College of the Redwoods complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities. Please present your written accommodation request at least one week before the first test so that necessary arrangements can be made. No last-minute arrangements or post-test adjustments will be made. If you have a disability or believe you might benefit from disability related services and may need accommodations, please see me or contact [Disabled Students Programs and Services](#). Students may make requests for alternative media by contacting DSPS at 707-476-4280.

Academic Support

Academic support is available at [Counseling and Advising](#) and includes academic advising and educational planning, [Academic Support Center](#) for tutoring and proctored tests, and [Extended Opportunity Programs & Services](#), for eligible students, with advising, assistance, tutoring, and more.

Academic Honesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the

Syllabus for Math 102-E0298 Pathway to Statistics – Eureka Campus

student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at: <http://www.redwoods.edu/board/Board-Policies/Chapter-5-Student-Services>, and scroll to AP 5500. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

Disruptive Classroom Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process a disruptive student may be temporarily removed from class. In addition, he or she may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at: <http://www.redwoods.edu/board/Board-Policies/Chapter-5-Student-Services> and scroll to AP 5500.

Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

Emergency Procedures for the Eureka campus:

Please review the campus evacuation sites, including the closest site to this classroom (posted by the exit of each room). The Eureka **campus emergency map** is available at:

(<http://www.redwoods.edu/aboutcr/Eureka-Map>; choose the evacuation map option). For more information on Public Safety, go to <http://www.redwoods.edu/publicsafety>. In an emergency that requires an evacuation of the building:

- Be aware of all marked exits from your area and building.
- Once outside, move to the nearest evacuation point outside your building:
- Keep streets and walkways clear for emergency vehicles and personnel.
- Do not leave campus, unless it has been deemed safe by the Incident Commander or campus authorities. (CR's lower parking lot and Tompkins Hill Rd are within the Tsunami Zone.)

RAVE – College of the Redwoods has implemented an emergency alert system. In the event of an emergency on campus you can receive an alert through your personal email and/or phones at your home, office, and cell. Registration is necessary in order to receive emergency alerts. Please go to <https://www.GetRave.com/login/Redwoods> and use the "Register" button on the top right portion of the registration page to create an account. During the registration process you can elect to add additional information, such as office phone, home phone, cell phone, and personal email. Please use your CR email address as your primary Registration Email. Your CR email address ends with "redwoods.edu." Please contact Public Safety at 707-476-4112 or security@redwoods.edu if you have any questions.

College of the Redwoods is committed to equal opportunity in employment, admission to the college, and in the conduct of all of its programs and activities.

Syllabus for Math 102-E0298 Pathway to Statistics – Eureka Campus

What You Need Not Already Covered Above.

- Bound Notebook with Graph Paper:
Roaring Spring #77475 or Ampad #26-251 (about \$2 - \$6), for example. Make sure it is bound and has graph paper in it. You will use this throughout the course to build yourself a reference book (see the “Reference Book Information” handout also).
- Calculator: A Graphing Calculator (Ti-83 or Ti-84 recommend). On the Eureka campus, a limited number of rental calculators are available from the Math lab in the ASC.
- Time. Lots!! In your own weekly schedule please make sure that you blocked out at least 15 hours (possibly as much as 20 hours), per week, to devote to this class.
- Computer Access for:
 - Email: I expect you to have regular access to a computer and expect to be able to contact you easily. The College uses your “mycr.redwoods.edu” email address to communicate with you so it is important that you receive those email messages; you can set it up to autoforward those emails to another email address if you prefer.
 - “Canvas” for course materials. There will be course materials available on Canvas. If you miss a class or part of a class, look on Canvas for the course materials.
- Graph paper. Either buy it or print it from a file in Canvas/Pages/
- There will be supplemental handouts. Some of these will be distributed in class and some will be available for printing from Canvas. You are not required to print a document, but you are responsible for the content, i.e. if not explicitly stated, you may view the documents online.
- Course Content:
 - Numerical Reasoning
 - Algebraic Reasoning
 - Probability
 - Basic Principles of Study Design
 - Mathematical Models
 - Graphing and Exploratory Data Analysis
- Participation in Class Activities

Attendance and participation are essential to the learning process. In addition, everyone benefits from your input and participation, and most of the work we do will be in groups. A hugely important aspect of this course is the incorporation of active learning in class; this requires everyone's participation, particularly during in class activities. Also, the best way to insure having a successful experience in any course is to come to every class meeting and keep up with the assignments. There will often be handouts during class to be turned in at the end of class. If you miss more than four class sessions, you may be dropped from the course.

I realize that sometimes things come up and getting to class is impossible. In those cases, just communicate with me as soon as you possibly can, but preferably before whatever it is you are going to miss. This is especially important in this lecture lab group activity based course.

Note that ALL students remain responsible for ALL assignments given and those assignments are expected to be turned in ON TIME. If you miss a class, the assumption is that you will get the necessary information to complete the assignment by the due date and be prepared to continue in the normal flow of the course.

CAUTION: the material builds from one week to the next and so IT IS VITALLY IMPORTANT THAT ALL STUDENTS ATTEND ALL CLASSES.

Syllabus for Math 102-E0298 *Pathway to Statistics* – Eureka Campus

Homework Assignments: Assignments will be described in class and posted in Canvas. There will be two categories of assignments: “Basic” and “Advanced.” To Pass this class with a “C” you do not need to do any “Advanced” assignments. Only those who want a grade higher than “C” need to do “Advanced” assignments.

Quizzes: There will be quizzes, some will be assigned for you to do in Canvas, and some will be in class not always announced ahead. You should always bring a pencil with you to class each day to be ready for a quiz. Bring your reference book which may be allowed for some quizzes.

Exam: There will be one midterm exam.

Other assignments: There will be at least two major cooperative projects beyond the in class group activities. Information will be given in class and posted in Canvas.

Reference Book: Each student is required to create his/her own personal Math Reference Book throughout the term. It should be made in a bound notebook. It should have a title page at the front,-followed-by-a-table-of-contents. The contents should include material learned in the course. For the most part, it is up to you to decide exactly what to include, though there will be a few items I will direct you to be sure to include. Each page should be one separate topic. Suggestion: as you make entries of your own, note the textbook page # to refer back to, if needed.

DUE DATES and LATE WORK: Caveat on "due dates": While we are, by necessity, confined within a certain time framework, it is important to me that you understand the material – given that, if you have made progress on an assignment but are having trouble completing it by the due date, communicate with me to make appropriate arrangements.

Syllabus for Math 102-E0298 *Pathway to Statistics* – Eureka Campus

5. Grading information (*subject to change with fair notice*)

	In class Assignments	Major Projects	Reference Book	Homework	Midterm Exam	Quizzes
For A/A-	At least 90% completed satisfactorily	At least 85% average	Excellent Reference Book, with all or most topics covered, with corresponding table of contents	<ul style="list-style-type: none"> • at least 90% of “Basic” problems completed in a legible, satisfactory way; • good work done on majority of “Advanced” problems 	At least 75%	At least 85% average
For B-/B/B+	At least 80% completed satisfactorily	At least 75% average	Good Reference Book, covering majority of course content with corresponding table of contents	<ul style="list-style-type: none"> • at least 80% of “Basic” problems completed in a legible, satisfactory way; • good work done on at least some “Advanced” problems 	At least 65%	At least 75% average
For C-/C/C+	At least 70% completed satisfactorily	At least 65% average	Basic Reference Book has basic topics covered	at least 70% of “Basic” problems completed in a legible, satisfactory way	At least 55%	At least a 65% average
For D	At least 60% completed satisfactorily	At least 60% average	Reference Book must have at least one page of content	Majority of “Basic” problems completed in a legible, satisfactory way	At least 40%	At least 60% average

For determination of +/- grades, the entire class spread will be considered at the end of the term.

CAVEAT:- The above procedures are subject to change.
