Syllabus for Math 25 – Trigonometry – Del Norte Education Center				
Semester & Year	Spring 2017			
Course ID and Section #	Math 25 - Section 041763			
Instructor's Name	Amber Buntin			
Day/Time	Monday-Thursday 12:30 -1:35pm			
Location	DM 36			
<b>Number of Credits/Units</b>	4 units			
Contact Information	Office location	E2 in the "Faculty Clubhouse"		
	Office hours	BY APPT (email me)		
	Phone number	707-465-2316		
	Email address	amber-buntin@redwoods.edu		
Textbook Information	Title & Edition	Algebra and Trigonometry (7th edition preferred)		
	Author	<mark>Sullivan</mark>		
	ISBN	7 <sup>th</sup> Ed: 0131430734 OR 8 <sup>th</sup> Ed: 0132329034		

#### **Course Description**

As stated in CR's catalog: A study of trigonometric functions, radian measure, solution of right triangles, graphs of the trigonometric functions, inverse trigonometric functions, trigonometric identities and equations, laws of sines and cosines, solution of oblique triangles, polar coordinates, complex numbers in trigonometric form, De Moivre's theorem, and conic sections. *Note:* A graphing calculator is required TI-83 or TI-84 recommended. Prerequisite: MATH-120 (or equivalent) with a grade of "C" or better, or appropriate placement exam score.

#### **Student Learning Outcomes**

- 1. Analyze and solve problems involving trigonometric functions or analytic geometry.
- 2. Apply the mathematics of trigonometric functions and analytic geometry to real-world problems and applications.
- 3. Use graphing technology to visualize trigonometric and polar curves, explore mathematical concepts, and verify results.
- 4. Write solutions to mathematical exercises in trigonometry and analytic geometry using sound mathematical reasoning with appropriate use of numerical, graphical, and symbolic representations.

#### **Special Accommodations**

College of the Redwoods complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities. Please present your written accommodation request at least one week before the first test so that necessary arrangements can be made. No last-minute arrangements or post-test adjustments will be made. If you have a disability or believe you might benefit from disability related services and may need accommodations, please see me or contact <a href="Disabled Students Programs and Services">Disabled Students Programs and Services</a>. Students may make requests for alternative media by contacting DSPS at 707-465-2352.

#### **Academic Support**

Academic support is available at <u>Counseling and Advising</u> and includes academic advising and educational planning, <u>Academic Support Center</u> for tutoring and proctored tests, and <u>Extended</u> Opportunity Programs & Services, for eligible students, with advising, assistance, tutoring, and more.

Syllabus Page 1 of 11

### Syllabus for Math 25 – Trigonometry – Del Norte Education Center

#### **Academic Honesty**

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at: <a href="http://www.redwoods.edu/board/Board-Policies/Chapter-5-Student-Services">http://www.redwoods.edu/board/Board-Policies/Chapter-5-Student-Services</a>. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

#### **Disruptive Classroom Behavior**

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; physically or verbally abusive behavior. In such cases, where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, he or she may be reported the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at: <a href="http://www.redwoods.edu/board/Board-Policies/Chapter-5-Student-Services">http://www.redwoods.edu/board/Board-Policies/Chapter-5-Student-Services</a>.

Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

#### **Emergency Procedures for the Del Norte campus:**

Please review the campus evacuation sites, including the closest site to this classroom (posted by the exit of each room). The Crescent City campus emergency map is available at (<a href="http://www.redwoods.edu/delnorte/Maps-and-Directions">http://www.redwoods.edu/delnorte/Maps-and-Directions</a>; scroll down to the Safety Map). For more information on Public Safety, go to <a href="http://redwoods.edu/publicsafety">http://redwoods.edu/publicsafety</a> In an emergency that requires an evacuation of the building:

- Be aware of all marked exits from your area and building.
- Once outside, move to the nearest evacuation point outside your building:
- Keep streets and walkways clear for emergency vehicles and personnel.
- Do not leave campus, unless it has been deemed safe by the campus authorities.

RAVE – College of the Redwoods has implemented an emergency alert system. In the event of an emergency on campus, you can receive an alert through your personal email, and/or phones at your home, office, and cell. Registration is necessary to receive emergency alerts. Please go to <a href="https://www.GetRave.com/login/Redwoods">https://www.GetRave.com/login/Redwoods</a> and use the "Register" button on the top right portion of the registration page to create an account. During the registration process you can elect to add additional information, such as office phone, home phone, cell phone, and personal email. Please use your CR email address as your primary Registration Email. Your CR email address ends with "redwoods.edu." Please contact Public Safety, 707-476-4112, <a href="mailto:security@redwoods.edu">security@redwoods.edu</a>, if you have any questions.

College of the Redwoods is committed to equal opportunity in employment, admission to the college, and in the conduct of all its programs and activities.

Syllabus Page 2 of 11

# Math 25 ~ Trigonometry

Mon-Thurs – 12:30-1:35pm – DM 36 (Course number 041763)

#### **Instructor Contact Info**

Amber Buntin, Assistant Professor, Department of Mathematics

Phone: 707-465-2316 Email: amber-buntin@redwoods.edu

Canvas message is the preferred way to contact me!

Office hours (Faculty Clubhouse E2): BY APPOINTMENT (email me)

Math Lab Hours (DM 36): Mon/Wed 3:30~4:30pm Tues/Thurs 11:30~12:30pm

You must be signed up to utilize the math lab (there is a FREE option)!

## Course Description

As stated in CR's catalog: A study of trigonometric functions, radian measure, solution of right triangles, graphs of the trigonometric functions, inverse trigonometric functions, trigonometric identities and equations, laws of sines and cosines, solution of oblique triangles, polar coordinates, complex numbers in trigonometric form, De Moivre's theorem, and conic sections.

**Note:** A graphing calculator is required TI-83 or TI-84 recommended. Prerequisite: MATH-120 (or equivalent) with a grade of "C" or better, or appropriate placement exam score.

### Classroom Environment and Attendance

It is essential to our class that both the students and teacher behave in a manner that will provide a comfortable learning atmosphere. Be respectful to one another. You should not hesitate to ask questions nor feel embarrassed to ask for help.

Class time is valuable, and while sometimes we will work on in-class activities, I ask that you DO NOT complete homework in class. Students miss the current material when working on assignments during lecture and often fall behind so it will not be tolerated.

You are expected to arrive on time and to leave upon dismissal. Arriving late or leaving before class is dismissed is disruptive and disrespectful to your fellow students as well as your teacher. Please be prepared with your headphones put away and cell phones SILENCED. If you have a job where you must have a radio/walkie (such as an emergency responder), or your phone on, please let me know right away!

If you must miss a day, please check with a classmate and/or Canvas to see what you missed and be sure to hand assignments in before the missed class!

## <u>Grades</u>

		93~100%A
		90~92%A~
Homework/Activities	20%	88~89%B+
Quizzes	15%	83~87%B
Exams	40%	80~82%B~
Final Exam	25%	78~79%C+
		70~77%C
		0~69%D~F

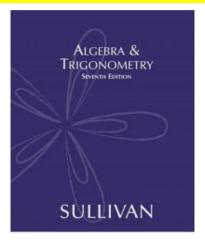

\*\*\* Final grade is at the professional discretion of the instructor \*\*\*

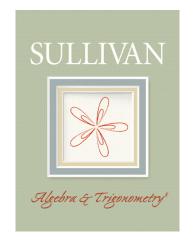

Syllabus Page 3 of 11

## **Required Materials**

Textbook: Algebra and Trigonometry
Author: Sullivan, published by Prentice Hall

#### 7th Edition ISBN #0131430734 8th Edition ISBN #0132329034

- I will be using the 7th edition, as that is what most students will be using.
- The 8<sup>th</sup> edition will work, but problem/page numbers will vary.
- There are a LIMITED number of  $7^{th}$  edition textbooks available for check out for the semester at the library. There are also books on reserve at the library.
- Order your textbook online for very cheap on amazon etc. If you are going to order online, I suggest you do so ASAP since there's HW due right away.

**Supplies:** A graphing calculator is **required** (TI-83+ or TI-84 recommended) and available to rent from the library for \$15 per semester (see Tanya at the main office and pick up from Lynn in the Library), a composition notebook (used as reference book), pencils and erasers, a **binder and notebook paper to complete homework**, ruler or straightedge and graph paper. Access to a computer with internet and printing capabilities is also a requirement.

## Reference Book

You will be keeping a reference book that will contain important information you have learned throughout the semester such as definitions, formulas, and examples. This reference book is **not a book for you to write all your notes in**. It is for you filter through your class notes and to **re-write up** the important information/tips/notes to yourself about important concepts. Some students already write all their in-class notes VERY nice and neat and I will accept this as your composition notebook, **but you must get my approval**. I will collect your reference book during exams and <u>grade them as a homework assignment</u> (see **Reference Book Guidelines** page for more info).

Syllabus Page 4 of 11

## Homework

Homework problems will be assigned nearly each lecture period, and are handed in on the announced due date (typically the next class period) at the beginning of class. We will have about 5-10 minutes reserved for homework questions each class. You are encouraged to work collaboratively on your homework but be sure to NOT COPY and check answers to ODD numbered problems in the back of the textbook.

Assignments are worth 5 points each and graded according to the following rubric:

	5 pts ~ Exceptional Work	4 pts - Good Work	2~3 pts ~ Needs Improvement	1 pt ~ Unsatisfactory
Homework Labeled	Homework is labeled properly.	Homework is not quite labeled properly.	Homework not labeled properly.	
Neatness	Work is very nice and neat, proper math notation is used and follows the homework guidelines	Work is fairly neat, organized and easy to read. Mostly uses proper math notation.	Work is somewhat neat, organized and easy to read. Some errors in math notation.	Homework is not acceptable. Work is disorganized and difficult to read.
Work Shown	Work is shown in great detail in problem solutions.	Work is shown in problem solutions.	Several steps are missing in solutions.	Work is not shown.
Accuracy	There are no visible math errors.	There are at most 1-2 mathematical errors	There are many mathematical errors.	Excessive errors.
Completion	All HW problems are completed.	At most 1 problem is not attempted.	At most 2 problems were not attempted.	Several problems were not attempted.
Graphing (when applicable)	Graph paper and a ruler are used and axes are scaled and labeled properly. Printed graphs are exceptional.	Graph paper and a ruler are used for graphs, but axes may not be scaled or labeled properly.	Graph paper is used, but axes are not scaled or labeled properly.	Work was completed in pen, didn't use graph paper and doesn't follow the homework guidelines.

Syllabus Page 5 of 11

### Homework con't

Please see "Homework Guidelines" for further details about HW expectations.

At the end of the semester, your **two** lowest homework scores will be dropped from your grade. Due to this, **I will not accept late work unless one of your <u>three</u> late work passes is attached.** Late passes can be used if you are sick, or there is an unexpected emergency etc. It is your responsibility to ensure that you get your HW turned in on time; if you know you will be missing class, you should turn your HW in **before** the due date, send it with a friend to class, or hand it in to the main office to be placed in my mailbox **before** class time on the due date.

#### Canvas

Our course canvas page will be updated regularly and will contain a variety of items such as: course announcements, class documents, assignments, review resources and much more. Be sure to turn on your notifications if you'd like to be notified about things like new announcements, changes to assignment due dates etc. You will be expected to check canvas daily and be aware of announcements made.

Link to Canvas: https://redwoods.instructure.com/

## Quizzes

There will be an in-class OR take-home quiz each week there is not an exam. In-class quizzes will be announced at least one class period in advance. For take-home quizzes, you may use your composition notebook, notes and textbook. You MAY NOT work with other students in class or get help at the math lab, the LIGHT center or from a tutor. All work shown on quizzes should be your own and should follow the HW guidelines. If I even suspect students work together on a quiz, both parties will receive a score of zero!

## Exams and the Final

There will be three in class exams (40% of grade) throughout the semester and a required 2-hour comprehensive final examination (25% of grade). Every student is REQUIRED to take a cumulative final exam. I will notify the class at least one week in advance as to the date of each in-class exam. Before each exam, you will receive a study guide or practice problems. I will schedule a study session before each exam (either outside or inside of class).

All exams need to be taken in class ON THE DAY OF THE EXAM unless you have made prior arrangements with me. Be sure to make all travel plans accordingly as there will be no make-ups for missed exams except in extreme or emergency cases (must provide documentation). If you take exams in the LIGHT center, you need to make sure you make an appointment in advance so that you take the final exam at the designated time.

## \*\*\*Final exam date and time to be determined\*\*\*

• If you have a documented disability or believe you can benefit from any of the services offered by Disabled Student Programs & Services (DSPS), please contact the DSPS office at 465-2352 (phone), 465-2388 (fax), TTY 465-2354 or view their webpage: <a href="http://www.redwoods.edu/district/dsps/delnorte/index.asp">http://www.redwoods.edu/district/dsps/delnorte/index.asp</a>

Syllabus Page 6 of 11

## **Academic Honesty**

Cheating is not accepted. If you are cheating, you will receive a grade of F in the course. Any violation of academic misconduct will be dealt with according to the procedures and sanctions proscribed by the College of the Redwoods. The student code of conduct is available on the College of the Redwoods website at: <a href="http://www.redwoods.edu/Portals/50/BoardPolicies/Chapter5/AP%205500.April%20">http://www.redwoods.edu/Portals/50/BoardPolicies/Chapter5/AP%205500.April%20</a> 2016.pdf?ver=2016-11-21-132857-103

# **Tutoring**

- The Math Lab. I encourage you to enroll in MATH 25L, section 042375 for .5 unit (22.5 hours ~ 1.5 hrs a week req) or section 042376 for 1 unit (45 hours ~ 3 hrs a week req) of credit and in order to obtain supplementary help. This is the cheapest for-credit tutoring option available on campus and I can't stress enough the value. Math lab is located in DM 36 this semester.
- MATH 252 Open Mathematics Lab (041259 No Credit) This is a free, no credit option to get math tutoring help. If you do not need units or want math help but cannot fulfill the hour requirements for mathlab, then this is the option for you!
- GUID-147 Applied Study Skills & Strategies for Math (1-2 units credit available). DSPS students work with a tutor and other math students to aid your success. Please check webdvisor for course numbers. 36-72 hrs required.
- **OPTIMATH** practice assignments give immediate feedback and written out solutions: <a href="http://msenux2.redwoods.edu/optimath/practice?course=math25">http://msenux2.redwoods.edu/optimath/practice?course=math25</a>
- The **CR Math Jam** webpage is a great way to prepare for exams and contains lessons as well as OPTIMATH assignments: http://mathrev.redwoods.edu/mathjam/?s=public

## How to Succeed in this Course

- ✓ Read your text. It is best if you read the section of the text <u>ahead</u> of the scheduled lecture date on that topic.
- ✓ Be in class on time every day.
- ✓ <u>Do your homework!</u> Plan to spend at least 1~2 hours outside of class for every hour inside of class. That is the minimum investment of time for success in this course.
- ✓ Work with classmates. Mathematics is a social subject (but not a spectator sport). Working with fellow students helps in your own understanding of the ideas of the course (as you explain and/or hear others explain key concepts and procedures).
- ✓ <u>READ and KEEP your returned work.</u> When you get work back, look for any remarks that I have made. Keep your work in a binder to keep a record of your scores. This is to make sure I correctly enter your grades.

Syllabus Page 7 of 11

## Faculty Withdrawal of Students

It is the policy of the College of the Redwoods Math Department to exercise a "Faculty Withdrawal" for any student who has missed more than 15% (~two weeks) of the class meeting time (prior to the drop deadline), due to the severely diminished likelihood of a successful outcome in the course. It is important to note that, if it is the student's intention to withdraw from the course, the responsibility remains with the student to ensure the proper paperwork has been filed – that is, students are not to assume the teacher will file the "Withdrawal" automatically.

### Check Your Grade

Students should check grade regularly by accessing the following webpage:

http://users.humboldt.edu/buntina/m25grades/grades.html

Students are responsible for checking their grade often and for accuracy. Please come to see me if you have any questions about your grade, are struggling in the course, or find that there are errors/missing assignments (keep all returned work to verify).

To check your grade, you will need to enter information in the following format:

**Username:** Last name, First name

**Password:** CR student ID number (with **NO** leading zero)

Notice that you must use a capital letter for the first letter in your first and last name. There is also a **comma and a space** between your last and first name and **NO SPACES after your name or ID**. If you enter your information incorrectly, the system will not let you log on. **Email me immediately if you are having problems logging in**.

### Final words

A few words about my expectations for you and myself in this course: My responsibilities include coming to class prepared to teach you mathematics, giving clear lectures, assigning carefully chosen homework problems that are relevant to our course and carefully preparing exam questions that accurately measure your progress in the course. Additionally, I am responsible to be available to you outside of class for consultation in office hours (by appointment...just email me ©).

Likewise, I believe that you are ultimately responsible for your college education and I expect you to come to class motivated to learn the material. This involves keeping up with homework assignments, seeking additional help, either from me or from the many resources available to you here on campus, before it is too late.

Anr	nouncements will be made in class and often followed up in Canvas. When absent, students are expected to check email, Canvas, and/or with fellow classmates!

**	***************************

Syllabus Page 8 of 11

## **Guidelines for Writing Homework**

Please follow these guidelines when completing homework assignments. It makes my grading experience much more pleasant ©

- 1. Complete all homework assignments on a **separate sheet of paper**. You **may use both sides** of the paper. Do NOT complete assignments on the pages of your textbook.
- 2. **Staple** all homework in the upper left hand corner.
- 3. **Label** your homework with your name, course number, and section number in the upper right-hand corner (see example below).
- 4. Copy down original problem and directions (summarize word problems)!
- 5. Write your problems in order **DOWN** the page. Please **skip a line** between problems.
- 6. Circle, box, or highlight your answers to each exercise so I can find your answer quickly.
- 7. Please use **pencil** when writing your homework, and please write legibly and neatly. Presentation is a component of your homework score. NO PENS!
- 8. Be sure to **show your work** when solving a problem. A problem with just the answer and no work shown will receive NO CREDIT.
- 9. Cut or tear off any frilly edges on paper torn from a notebook.
- 10. When creating a graph, you **MUST USE GRAPH PAPER AND A RULER** or you will get a ZERO on the assignment.
- 11. If you are ever given two assignments due on the same day make sure complete them, and **staple them SEPARATELY**.

Staple in upper left corner.

Ima Student Math 25

HW 1.2: 4, 11, 20, 41

4. Solve 
$$-26x + 84 = 48$$

$$-26x + 84 = 48$$

$$-26x = -36$$

$$x = \frac{36}{26}$$

20. Solve 
$$-8 - 8(x - 3) = 5(x + 9) + 7$$

$$-8 - 8(x - 3) = 5(x + 9) + 7$$

$$-8 - 8x + 24 = 5x + 45 + 7$$

$$-8x + 16 = 5x + 52$$

$$-13x = 36$$

$$x = -\frac{36}{13}$$

11. Solve 19x + 35 = 10

$$19x + 35 = 10$$

$$19x = -25$$

$$x = -\frac{25}{19}$$

41. Solve 
$$Ax + By = C$$
 for  $y$ 

$$Ax + By = C$$

$$By = C - Ax$$

$$y = \frac{C - Ax}{B}$$

Syllabus Page 9 of 11

# **Reference Book Guidelines**

Math 25 - Spring 2017

### Purpose: Your reference/composition notebook:

- helps you **study for exams** by *re-writing* in-class notes and determining what information is important to YOU.
- improves overall organization of notes.
- may be used on some quizzes if you submit it to be graded during exams & keep it up to date.
- can be very useful in your **future math courses!**

#### **Requirements:**

- You should purchase a **graph paper composition notebook**...You can also use a regular spiral bound notebook with graph paper.
- This book should be SEPARATE from your in-class notebook (unless class notebook is approved).
- Write your name and CONTACT INFO inside of front cover/cover page. In case you lose your book, you should have your name and an email address or phone number or address.
- Skip at least 3 pages in the beginning of your book for a Table of Contents (more if you write big). You should include description of the material you have written on a page, and page number (see the table of contents of your textbook or any book).
- Number your pages in the top right, or lower left.
- **Summarize concepts** you have learned using your own words. Make notes to yourself about strategies used, proper notation and your common mistakes.
- You must write "a little something" from EACH section. Even if you "know it already." At the end of the semester, come the last exam, things that you know in the beginning of the semester, you may no longer have memorized.
- Your reference book will be **collected DURING Exams** and graded (homework category). It will be worth **5 points each time it is graded**.

## **Helpful Hints:**

- **Do a little bit at a time.** Do not try to cram everything in there the night before an exam. Have your book out when you are doing homework and maybe jot down a particularly challenging example you encounter. In class, sometimes I will say "you might want to put this in your comp book." Put a star by that info and copy it into book **right after** of class so you remember.
- <u>Use colors!</u> Maybe write/highlight definitions in green, examples in purple, important things to remember in red...and so on. Be creative!
- **Don't write/highlight too much** as it will be difficult to find what you're looking for when using it as a reference.
- Make it YOURS! Use colors, doodle in it, make it pretty and keep it neat:)

Syllabus Page 10 of 11

# Late Work Pass #1

Math 25 Spring 2017

Name Assignment \_\_\_\_\_\_ Value ONE homework to be handed in late without penalty before Exam **Authorized by** Miss Amber Buntin \*\*\*May be used to hand in one late homework assignment. Cannot be used for in-class activities, big projects,

quizzes, or exams. Not transferable to other students. Must be redeemed BEFORE the exam that contains information on the homework section that is late. Limit 3 per student per semester! Staple to front of assignment!

# Late Work Pass #2

Math 25 Spring 2017

Name \_\_\_\_\_ Assignment \_\_\_\_\_ Value ONE homework to be handed in late without penalty before Exam

Authorized by Miss Amber Buntin

\*\*\*May be used to hand in one late homework assignment. Cannot be used for in-class activities, big projects, quizzes, or exams. Not transferable to other students. Must be redeemed BEFORE the exam that contains information on the homework section that is late. Limit 3 per student per semester! Staple to front of assignment!

# Late Work Pass #3

Math 25 Spring 2017

Name Assignment \_\_\_\_\_ Value ONE homework to be handed in late without penalty before Exam

Authorized by Miss Amber Buntin

\*\*\*May be used to hand in one late homework assignment. Cannot be used for in-class activities, big projects, quizzes, or exams. Not transferable to other students. Must be redeemed BEFORE the exam that contains information on the homework section that is late. Limit 3 passes per student per semester! Staple to front of assignment!
