Evaluation & Grading Policy

Course Grading Scale

Weekly Module Discussions/Activities	25%
Homework (Online and Written)	35%
Unit Projects	40%

Weekly Module Discussions/Activities

Your presence and participation in the weekly module discussions and activities is essential for making this class successful. Your participation informs me, and you, as to whether you are gaining an understanding of the material. They also provide an opportunity for you to build your understanding of and use of mathematical thinking and reasoning.

There will be one or two of these in each weekly module. You can complete these within Canvas or via a weekly Zoom session which we'll schedule during the first week of classes. Each will be worth 10 points. These cannot be completed late and submitted for credit.

Homework

There will be a 20 point homework assignment in each weekly module. The homework may consist of online practice (using MyOpenMath linked through Canvas) or a written/typed assignment you submit through Canvas as a pdf or some combination. Here you'll be able to practice and get immediate feedback about how you are doing at understanding the

mathematical skills and reasoning we have been studying. I accept these up to one-week late, however there is a late penalty. For MyOpenMath assignments you will receive 70% of the points earned for each question answered submitted correctly after the due date. For non-MyOpenMath assignments, you will receive 70% of the credit if submitted late.

Unit Projects

A Unit Project will be due at the completion of each unit we cover. See the Tentative Calendar below for when these are due. The Unit Project will evaluate your understanding and ability to apply mathematics to contemporary issues. More information on each of these will be given at the start of each unit. Unit Projects received up to a week late will be assessed a 10% penalty. Unit projects over a week late can receive a grade of no more than 70%. Non-passing projects, except the last unit project, may be resubmitted once for at most 70%. No Unit Projects will be accepted after Friday 12/18/2020.

Letter Grades will be assigned no stricter than the following:

A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	0-59%

Academic dishonesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](#) and on the [College of the Redwoods website](#).
