Evaluation & Grading Policy

Course Grading Scale

Weekly Module Discussions/Activities	20%
Online Homework	20%
Weekly Synthesis	20%
Midterm	20%
Final	20%

Weekly Module Discussion/Activities

Your presence and participation in the weekly module discussions and activities is essential for making this class successful. Your participation informs me, and you, as to whether you are gaining an understanding of the material. They also provide an opportunity to build your understanding of and use of mathematical thinking and reasoning.

There will be 1-2 in each weekly module. Each will be worth 10 points. These cannot be made up nor completed after that week's module closes.

Online Homework

There will be a weekly online homework (using MyOpenMath linked through Canvas) for this class. Each will be worth 20 points. Here you'll be able to practice and get immediate feedback about how you are doing at understanding the mathematical content in each weekly module. I will accept these up to one-week late, however each question submitted correctly after the due date will receive 75% credit.

Weekly Synthesis

Each week there will be a weekly synthesis. These are like a cross between written homework and a take home quiz. With these you will be asked to connect concepts and mathematical skills, demonstrating you are learning the algebraic techniques and notation you will need as you continue your studies in STEM related fields. Each will be worth 20 points. You may turn them in up to a week late for at most 15 points.

Midterm and Final

There will be a Midterm just before Spring Break, the week of March 8th – March 12th. Make-ups are given at my discretion. The earlier you contact me with regards to the potential or actual missing of the Midterm increases your chances of being granted a make-up or being able to make other arrangements to take it.

If you miss the Midterm and are not able to make it up, or do poorly on the Midterm, your percentage on the Final will replace your Midterm score. ***Your final will be given during the week of May 10th – May 14th.***

Letter Grades will be assigned no stricter than the following:

A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	0-59%

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](#) and on the [College of the Redwoods website](#).

Disruptive behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the [College Catalog](#) and on the [College of the Redwoods website](#).
