Academic Honesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at:

www.redwoods.edu/district/board/new/chapter5/documents/AP5500StudentConductCodeandDisciplinaryProcedureSrev1.pdf Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

Disruptive Classroom Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; and physically or verbally abusive behavior. In such cases where the instructor determines that a student has disrupted the educational process a disruptive student may be temporarily removed from class. In addition, he or she may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct (AP 5500) is available on the College of the Redwoods website at:

Consideration Code

- Please respect the opinions of fellow students by not insulting or demeaning their comments. Violation of this code may lead to a student's dismissal from the course.

Computer Skills: Online courses require adequate computer skills. You should be able to navigate the course websites, the eBook Launchpad site, open and download files, use a word processor with Microsoft word (.docx) or be able to convert files to rich text format (.rtf) or portable document format (.pdf), and submit files to the class website. It is your responsibility to meet the technological demands of the course.

Computer Requirements: Most computers and Internet providers are adequate. You should have high-speed internet (such as broadband) service from cable, DSL, or satellite providers, as there are required multimedia assignments. You need to have reliable access to the Internet at least twice a week for 8 weeks. Anticipate problems with your computer and Internet access (including power outages) by not waiting until the last hour to submit assignments. **You must also buy access to the eBook and the Launchpad access that comes with the eBook. You will need to have Launchpad access in order to complete the quizzes and video activities.**

Portable Devices vs. Computers: Although you can use late-model portable devices (such as Android or iOS phones & tablets) for some things, you should plan on doing the majority of your work from a reasonably late-model notebook or desktop computer (Mac or PC). *You are discouraged from participating in this class solely from a portable device.* If you do decide to use your portable device for some of your class work, use the free Canvas app (called “Canvas by Instructure”) available in iTunes (for iOS) and the Google Play Store (for Android) instead of trying to connect to Canvas using a web browser. Your experience will be a lot better using the app.

Student Commitment: Your commitment will require at least as much time as you dedicate to a traditional class (At least 12 hours a week). Necessary skills include:

- Carefully read online lectures and textbook chapters
- Participate in online activities and watch online videos
- Participate in online discussions, and
- Complete weekly quizzes.

Conscientiousness, attention to details, and skills in reading and writing are critical for success.

Time required from the students and what to expect from the instructor.

You will be required to put in at least **12 hours of work per week**. The work will include readings, watching videos, studying for exams, working on assignments, and contributing to the discussion forums.

I will respond to all emails and discussion posts within 24 hours. Please keep notice of all updates, news postings, and announcements on Canvas.

Disabled Students Programs & Services (DSPS) at College of the Redwoods (CR)

Post-secondary institutions must take steps to assure that students with disabilities are not excluded from programs because of the absence of educational auxiliary aids. The appropriate educational accommodations vary across students even though they may possess the same type of disability. Individual students have varying strengths, weaknesses, and levels of functioning, therefore dictating a variety of accommodations being available to the students.

Some of the accommodations that are available to students with disabilities through DSPS include: counseling, priority registration, learning disability assessment, testing accommodations, liaison to campus and community, readers, textbooks in alternate formats, sign language interpreters, real-time captioning, mobility assistance, tape recorders, and special course offerings. The accommodations that are available may vary on each of the CR campuses. For more information, the DSPS Faculty Handbook may be accessed on-line at <http://www.redwoods.edu/District/dsps/Faculty-Handbook/index.htm>, or hard copies are available through the DSPS office. You can contact me about more DSPS information or go to the College of the Redwoods DSPS website for more information: <http://www.redwoods.edu/district/dsps/faq.asp#1>.

Netiquette Consideration Code

- Please respect the opinions of fellow students by not insulting or demeaning their comments. Violation of this code may lead to a student's dismissal from the course. This is an online course but simple ethical standards exist in this virtual world as well.
- Please read the College of the Redwoods student's code of conduct, as those rules apply in this class. The link to the code of conduct is available here: <http://www.redwoods.edu/District/Board/New/Chapter5/AP%205500%20Conduct%20Code%20final%2002-07-2012.pdf>

Attendance

- Students are required to access the Canvas site in order to complete the assignments. Students are required to access the site at least by **the end forth day of class (Thursday May 24th)** in order to not be dropped from the course. Proof of accessing the site will be determined by completing the first discussion forum labeled "Introductions." For satisfactory completion of the introductions discussion forum, you will need to submit a self-introduction and reply to at least one other student's introduction. **If you do not meet the satisfactory requirements** for the introductions discussion forum by the end of forth day of class, **you will be dropped from the course.**

Drop/Withdrawal: Student-initiated withdrawal may occur through the first week of class with nothing recorded in the student transcripts and from weeks 2-10 with a recorded W (withdrawal). Administrative procedure (AP) 5075 allows instructors to withdraw students from class for non-participation through the first week of class. Non-participation for two weeks of assignments may result in involuntary withdrawal. No course withdrawal is allowed after the 2nd week of class."

Class Schedule

- All of the submission due dates in **RED (Discussion Forums and Exams)** must be submitted on **Canvas**.
- All of the submission due dates in **BLUE (Chapter Quizzes and Video Activities)** must be submitted on **Launchpad (eBook)**.

- All assignments, quizzes, activities, discussion forums, and exams must be completed by 11:59pm on the day it is due. No late submission will be accepted without a valid reason. **Do not wait until the last hour to make submissions.** You must prepare for issues concerning computer problems, Internet connections and any other issues that may arise (it is not a valid reason if you waited until the last hour to submit and issues arise and you weren't able to make submissions on time). So you must plan on making submission by 10:59pm on the day it is due. The only exception is if all of the students experience the same issues an hour before submissions are due.
