General Psychology - Online

Semester & Year	Summer 2018 (May 21 – July 26)	
Course ID & Section #	PSYCH 1 V6269	
Instructor's Name	Dr. Philip Mancus	
Number of Credits/Units	3	
Contact Information	<i>Office location</i>	Virtual Campus
	<i>Office hours</i>	Mondays 11:00 AM - 12:00 PM
	<i>Phone number</i>	707-465-2362
	<i>Email address</i>	Philip-Mancus@Redwoods.edu
Textbook Information	<i>Title & Edition</i>	Exploring Psychology, 10 th edition
	<i>Author</i>	Myers and DeWall
	<i>ISBN</i>	978-1-4641-5407-2

Course Description

A course focusing on the scientific study of behavior and mental processes. The content of the course focuses on the exploration of major theories and concepts, methods, and research findings in psychology. Topics include biological foundations, perception, learning, cognition, emotion, motivation, development, personality, social psychology, psychological disorders and therapies, and applied psychology. This course is transferable to four-year colleges and is a prerequisite for most upper division psychology courses.

Student Learning Outcomes

1. Explain concepts in areas of psychological theory and research while representing appropriate breadth and depth of knowledge within the context of historical trends in psychology.
2. Recognize and understand the impact of diversity on psychological research, theory and application, including (but not limited to): age, race, ethnicity, culture, gender, socio-economic status, disability, and sexual orientation.
3. Demonstrate critical thinking skills and information competence as applied to psychological topics.
4. Analyze how experience, culture, learning and biology affect behavior and cognitive processes.

Necessary Computer Skills

Online courses require adequate computer skills. It is your responsibility to meet the technological demands of the course. You must be able to:

- Navigate the Course Management System (Canvas)
- Activate, receive, and respond to email from your student account (mycr.redwoods.edu).
- Use a web browser to interface with the Canvas CMS
- View streaming video
- Use a word processor
- Download and open PowerPoint files
- Download and open Microsoft Word documents
- Use Adobe Reader to read pdf documents
- Convert word processing files to pdf format
- Upload files to Canvas.
- Download and listen to mp3 & mp4 digital audio files

Course Syllabus

General Psychology - **Online**

Technology Requirements (computer, other hardware, and software)

It is your responsibility to ensure that your computer and internet service provider are adequate and reliable to take this online course. You should have, at the least, broadband services from cable, DSL, or satellite providers. You need reliable and sufficient access to the internet for the entire semester.

Preclude problems that may arise with your computer or internet access (including laptop failures and power outages) by not waiting until the last minute to submit assignments. Having a technical issue will not count as a legitimate excuse for missed deadlines.

Portable Devices vs. Computers

Although you can use late-model portable devices (such as Android or iOS phones & tablets) you should plan on doing the majority of your work (especially exams and assignments) from a reasonably late-model notebook or desktop computer (Mac or PC). If you use your portable device for some of your class work, use the free Canvas app (called “Canvas by Instructure”) available in iTunes (for iOS) and the Google Play Store (for Android). It is unadvised to try to connect to Canvas using a web browser on a portable device. Your experience with Canvas will be a lot better using the app.

Technology Support

Before contacting Technical Support please visit the Online Support Page at <http://www.redwoods.edu/online/Help>. For password issues with Canvas, Web Advisor or your mycr.redwoods.edu email, contact Technical Support at its@redwoods.edu or call 707-476-4160 or 800-641-0400 ext. 4160 between 8:00 A.M. and 4:00 P.M., Monday through Friday.

Special Accommodations

College of the Redwoods complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities. Please present to me your written accommodation request (your Support Services Agreement) at least three days before the first quiz so that necessary arrangements can be made. No last-minute arrangements or post-test adjustments will be made. If you have a disability or believe you might benefit from disability related services and may need accommodations, please see me or contact [Disabled Students Programs and Services](#). Students may make requests for alternative media by contacting DSPS at 707-476-4280. I make every attempt to follow universal design in the course website to ensure full accessibility. Please contact me if you have particular physical or learning disabilities so we may discuss your options.

Regular Effective Contact

In this class we will communicate weekly through the use of discussion forums, weekly announcements from your instructor, course instruction and notes for each chapter, and virtual conferences.

Time Management

Good time management is essential to success in this class. Students are often surprised by how much time it takes to complete the work in an online course. With that said, *expect to spend 9 to 12 hours per week working on this class*. Conscientiousness, attention to detail, careful reading and meticulous writing are all part of learning, and learning takes time. Your commitment will require at least as much effort as you dedicate to a traditional class. For example, you will be required to:

- Read online lectures and textbook chapters
- Participate in online activities and watch online videos

Course Syllabus

General Psychology - Online

- Participate in online discussions
- Work collaboratively with fellow students
- Complete online quizzes, exams, and projects.

Academic Support and Resources

Are you ready for online classes? Please take about 15 minutes to review what it means to take an online class by watching the Introduction to Online Learning presentation at:

[Introduction to Online Learning](#). In addition, here are some other resources to help you.

- What to expect when taking an online course at College of the Redwoods: [CR Online Course Information](#).
- Learn more about the Canvas Course Management System including help and tutorials: [Canvas Overview](#).
- Here's a guide for taking online classes: [Student Online Hand Book](#).
- Library resources (including online databases) can be found at: [CR Library](#).
- See what other community college students have to say about what it takes to be a successful online student: [Student Advice on Taking an Online Class](#).

Academic support is available at [Counseling and Advising](#) and includes academic advising and educational planning, [Academic Support Center](#) for tutoring and proctored tests, and [Extended Opportunity Programs & Services](#), for eligible students, with advising, assistance, tutoring, and more. The following resources are available to support your success as a student:

Course Communication

My preferred method of communication is the messaging feature within Canvas. When you first log on you'll see an icon that says "Inbox." In it, find our class and send me a message. I will usually reply within 24 hours, Monday through Friday. If for some reason you cannot access the Canvas website, send me an [email](#).

Academic Honesty

In the academic community, the high value placed on truth implies a corresponding intolerance of scholastic dishonesty. In cases involving academic dishonesty, determination of the grade and of the student's status in the course is left primarily to the discretion of the faculty member. In such cases, where the instructor determines that a student has demonstrated academic dishonesty, the student may receive a failing grade for the assignment and/or exam and may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct is available on the College of the Redwoods website at: [Code of Conduct](#). Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

Instructor Specific Policy

In this class, all work done for credit must be your own, completed by you without assistance from anyone other than basic editing, unless otherwise directed. Students new to college are sometimes unfamiliar and uncertain of what is acceptable and what isn't. This section establishes my policy for academic dishonesty and its consequences.

Course Syllabus

General Psychology – **Online**

One of the biggest problems in an online environment is plagiarism, which is trying to pass off someone else's ideas, data, or text as if they were your own. I treat plagiarism as a form of academic dishonesty. This means it will benefit you to know what it is and how to avoid it. For a quick guide on plagiarism, the [Online Writing Lab](#) at Purdue University is a great resource. *It is your responsibility to know what plagiarism is and to refrain from it entirely.* In addition to plagiarism, academic dishonesty includes but is not limited to cheating, collusion, complicity, abuse of resources, computer misuse, fabrication or falsification, unpermitted multiple submissions, and bearing false witness.

Students who are caught committing academic dishonesty on an assignment immediately forfeit all credit for that assignment. For repeat offenses, I will file a formal complaint with the Dean of Students and you may be dropped from the course or receive a failing grade. To learn more about your rights and responsibilities as a student, please familiarize yourself with the [Student Code of Conduct](#), especially pages 10-20. Additional information about the rights and responsibilities of students, Board policies, and administrative procedures is located in the college catalog and on the College of the Redwoods website.

Disruptive Classroom Behavior

Student behavior or speech that disrupts the instructional setting will not be tolerated. Disruptive conduct may include, but is not limited to: unwarranted interruptions; failure to adhere to instructor's directions; vulgar or obscene language; slurs or other forms of intimidation; physically or verbally abusive behavior; and offensive behavior not otherwise specified. In such cases where the instructor determines that a student has disrupted the educational process a disruptive student may be temporarily removed from class. In addition, he or she may be reported to the Dean of Students or designee.

Classroom Etiquette and Acceptable Use

While we all have a local set of social norms for how to act on social media and amongst our peer groups, the digital world is quickly developing social conventions for how to conduct oneself in a public or semi-public virtual environment, like in an online class. Being online requires paying attention to the way we communicate because our messages often lack important cues such as tone of voice, eye contact, facial expression, gesture, immediate context, etc. We've probably all had the experience where an email was poorly received because someone read it the wrong way. So, the online community has developed a set of guidelines for how to act in cyberspace. To learn more, check out this source on "Internet etiquette" or [Netiquette](#).

College of the Redwoods also has an [acceptable use policy](#), which governs what kinds of activities are allowed (or prohibited) on CR computing resources. Even if you are working from your home computer, you are still restricted from using the class website in ways that violate the college's policy. Overall, it is important that we each conduct ourselves in a manner fitting for a college classroom, just as if we were assembled together in a physical setting. In general, if we all abide by the following rule we should get along just fine: Be respectful when communicating with your fellow students and with your instructor.

Policy on Hate-Based Communications

In this class I have a zero tolerance policy when it comes to individuals, groups, or organizations professing ideologies that target, intimidate, and/or dehumanize individuals or groups based on their perceived race, color, ethnicity, nationality, national origin, citizenship, language, religion, age, sex, sexual orientation, gender identity, body size, marital status, genetic status, veteran status, assault and trauma survivor status, and/or physical dis/ability. Such expression is antithetical to the spirit of the

Course Syllabus

General Psychology – **Online**

academy and to the mission of the college. Individual actions that express hatred, contempt, or otherwise degradation of others will not be tolerated. Any and all speech, gestures, adornment, emblems, codes, insignias, signs, symbols, slogans, flags, propaganda, paraphernalia, or other memes that express or represent hate-based ideology or discrimination against protected classes, or otherwise signifies identification with, sympathy for, affiliation with, or membership in a hate group are strictly prohibited from this virtual classroom. Your instructor reserves the right to determine what is acceptable. Any violation of this policy will result in the student(s) having classroom privileges suspended until compliance is assured. Names will be forwarded to the Dean of Students.

Emergency Procedures for College of the Redwoods

RAVE – College of the Redwoods has implemented an emergency alert system. In the event of an emergency on campus, you can receive an alert through your personal email, and/or phones at your home, office, and cell. Registration is necessary in order to receive emergency alerts. Please go to [Get RAVE](#) and use the “Register” button on the top right portion of the registration page to create an account. During the registration process you can elect to add additional information, such as office phone, home phone, cell phone, and personal email. Please use your CR email address as your primary Registration Email. Your CR email address ends with “redwoods.edu.” Please contact Public Safety at (Eureka) 707-476-4112, (Del Norte) 707-465-2311, or (Klamath-Trinity) 530-625-4821 or email them security@redwoods.edu if you have any questions.

Please review the campus evacuation sites for whenever you are on campus (posted by the exit of each room). Emergency maps are available at [District Maps](#). For more information on Public Safety, go to [Public Safety](#) In an emergency that requires an evacuation of the building:

- Be aware of all marked exits from your area and building.
- Once outside, move to the nearest evacuation point outside your building:
- Keep streets and walkways clear for emergency vehicles and personnel.
- Do not leave campus, unless it has been deemed safe by the campus authorities.

College of the Redwoods is committed to equal opportunity in employment, admission to the college, and in the conduct of all of its programs and activities.

Proctoring

All work done for this class is done online. There won't be any proctored exams.

Course Overview

Welcome to your online class of General Psychology. This is the official Course Syllabus Document (or “Course Guide”), which contains vital information you’ll need to know to successfully complete the course, including accessing the Course Management System (CMS), getting prepared for class, course policies, grading, and the semester schedule. Please save this document to a safe place and read it in its entirety. Whenever you have a question about how the course works, consult this document first.

Important Dates

- **Semester Dates:** From May 21 to July 26
- **Start Date:** May 21
- **Confirmation Date:** May 23. This is the deadline to introduce yourself to the class. Missing this deadline will result in being dropped from the course.
- **Census Date:** June 1. Students who don’t participate in the class before this date will be dropped from the course.
- **Mock Research Proposal Due:** June 11
- **Final Drop Date:** June 29. This is the last day for you to withdraw from the course and get a “W” on your transcript.
- **Report on Applied Psychology Due:** July 2
- **All College Holiday:** July 4
- **Final Exam:** July 26

The Canvas Course Management System (Course Website)

This course is taught 100% online. We will not meet face to face. All instruction will take place using the Canvas Course Management System. Here are login instructions for Canvas:

1. Open your web browser and go to redwoods.instructure.com (click the following hyperlink to go there: [Canvas Log In](#)). Or, go to the [College of the Redwoods Home Page](#) and click “Canvas.”
2. Enter your username and password.
 - a. Your username is your Web Advisor login (e.g., **flastname123** – first initial + **lastname** + the last three digits of your student ID number).
 - b. The initial password for everyone is your eight-digit birthday (mmddyyyy).
3. Once logged in, find the link for this class. Click the link to enter the course. If you need assistance logging in please go to the following webpage: [Canvas Login Help](#). It is highly advised that you change your initial password once logged in.

Confirming Your Presence in the Virtual Classroom

At the very beginning of the semester you must confirm your presence in the virtual classroom by the end of the day on Wednesday of Week One (i.e., the “Confirmation Date”). Showing up means two things.

First, after you log on to the course website you must configure your account settings and upload a profile picture with which the rest of the class can identify you. You cannot use the default grey silhouette provided by Canvas as your picture. Second, you must post an introduction of yourself to the “Introductions” discussion forum. To do this, log in to Canvas, go to the page for this class, and go to the Modules list. Work through the “Orientation” module and introduce yourself in the first discussion, found at the end of that module. This will confirm your enrollment in the course and you will avoid being dropped as a “no show.” **Students will be dropped from the class if they do not log in, choose a profile picture, and introduce themselves by the deadline.**

Waitlist

If there is an opening, Webadvisor will allow you to register for the course up until the first day of class (the start date). If the class is full, the first five students on the waitlist will be added to the class the day before class begins. Students must be on the waitlist to qualify for entry. No late adds will be allowed.

Service Failure (What to Do if Access to the Internet is Interrupted)

Widespread Outage. In the event of a power or network outage that affects a *substantial* number of students in a large geographical area, I will make allowances to all students for any missed time or work. *If the college website is down, the course website may still work*, so it's best to go directly to <http://redwoods.instructure.com> when internet service is restored. Continue checking regularly until you are able to log on.

Local Outage. *A local outage (i.e., service interruption that only applies to you, your household, or your immediate residential block or building), is an insufficient excuse for missing work.* You can always go to a public wireless/hotspot or the nearest College of Redwoods campus and use the resources there. (See the section below on *Missed Work*.)

You need reliable and sufficient access to the internet for the entire semester. Preclude any problems that may arise with your computer or internet access (including laptop failures and power outages) by not waiting until the last minute to submit assignments.

Attendance, Participation, and Assignments

Attendance and Participation

This is an online course. It is essential that you participate regularly in the class. Participation is defined as responding to all queries from your instructor, logging on and reading assigned material, completing the learning unit (including taking quizzes and contributing to discussions), working collaboratively when assigned to peer groups, completing exams when scheduled, and submitting written assignments when due. If you cannot meet these requirements, you should not take this class. Please note the following course policies about lack of course participation:

- Students who do not log on by the Confirmation Date (see above) will be dropped from the course.
- Students who do not complete assignments that are due prior to Census Date will be dropped from the course.
- After the census date, students who show a pattern of excessively missing assignments or otherwise slacking in participation may be dropped from the course. I reserve the right to determine what constitutes “excessive” and will notify you in advance, prior to the Withdrawal Date, if I am considering such action. *If you do not hear from me that I plan on dropping you from the class, it is your responsibility to withdraw from the course by the deadline if you deem it necessary to do so.*

Missed Assignments

All graded assignments in this course will have a posted due date. Some assignments will have a grace period where I allow late submissions. Late work is always deducted by 30% before I begin grading. Waiting to complete an assignment until the day it is due is ill advised. In addition, please take note of the following points regarding assignments:

- Because you (the student) will have approximately one week's time to contribute to each unit's discussion and take the unit quizzes, discussions and quizzes cannot be completed late nor can they be made up. I will drop your lowest discussion score and lowest two quiz scores at the end.
- The research proposal and the career report must each be submitted by the respective deadline to attempt full credit. I will accept submissions up to 48 hours past deadline, but you will be penalized with an automatic 30% taken off the top.
- ***Vacation, family business, childcare or other plans do not excuse you from taking the exam on the scheduled date. If you inadvertently miss the deadline for your final exam, you must provide written documentation*** that one of the following events occurred, otherwise you will not be allowed to make up the missed final exam:
 - You became incapacitated due to illness, injury, or traumatic event which prevented you from logging on and completing the exam **on the exam due date**.
 - You were required, on the exam due date, to provide urgent care for an immediate family member, dependent, caregiver, or friend who had no one else to help them.
 - You were called to duty, on the exam due date, in your capacity as a first responder or member of the armed services.

Having internet or computer problems does not constitute a legitimate excuse to miss the deadline for an assignment unless your instructor deems it was caused by an event that affected a substantial number of other students (see Service Failure, above). Your instructor reserves the right to determine what is considered "substantial."

Returned Work

On average, you can expect graded assignments to be returned within approximately one week's time. Some assignments take longer to grade, some take less.

Assessment, Evaluation, and Grading

The course is organized into units, containing course notes, assigned readings and activities, a discussion, and one or more quizzes. Your grade will be determined using the following weighted categories:

Discussions (30% of your total grade)

For each unit there is a corresponding discussion. Each discussion is initiated by a prompt from your instructor. You respond to the prompt and then discuss your answers with each other. ***Missed discussions cannot be made up, but I will drop your lowest discussion score.***

Quizzes (30% of your total grade)

For each unit there will be at least two quizzes. Quizzes are timed, objective, open-book, and open-notes. ***Missed quizzes cannot be made up, but I will drop your lowest two quiz scores.***

Written Assignments (20% of your total grade)

You have a "mock" research proposal due Week 4 and a career report on occupations in the field of psychology due Week 7. I will accept these assignments up to 48 hours late, but I will deduct 30 percentage points from late submissions. I will not accept papers after the late deadline. All submissions must be made electronically using the Canvas Assignment upload link. I will not accept your paper as an email attachment or copied and pasted into an email or a message.

Final Exam (20% of your total grade)

You will take a comprehensive final exam. The exam will be released at the beginning of Wednesday, July 25 and must be completed by the end of the day on Thursday, July 26. You must complete the exam

during this time period. **If you cannot meet this requirement you should not take this class.** No late submissions will be accepted.

Grading

The Canvas website will show your current score in the class as a percentage. **Please note, that regardless of your overall percentage in the class:**

- Students who get less than a D (<50%) in any one grading category will get no higher than a C for the course (and it may be lower, depending on the total of all categories).
- Students who get less than a D (<50%) in any two grading categories will get an automatic F for the course.

I use the following scale in determining your final letter grade:

- A = 90% and above
- B+ = 87-89%
- B = 80-86%
- C+ = 77-79%
- C = 70-76%
- D = 50-69%
- F = 49% and below

An Incomplete (I) is given at your instructor’s discretion and will only be granted to those students who continue to participate in class, have completed all prior work, and who have made arrangements with me by the end of the 9th week. This is a rare privilege and is not granted lightly.

Please note: There is no “extra credit” or “make up work” given in this class.

Course Syllabus Subject to Change

As your instructor, I reserve the right to make changes to this syllabus and the course content. While I make every effort to follow the policies and schedule laid out herein, there may be times when changes are necessary. I will inform the class of changes using the Canvas Announcements tool.

Course Schedule

<i>Week</i>	<i>Topic</i>	<i>Assignment (See Canvas for quiz & discussion dates)</i>
I: May 21	Ch. 1: Psychological Science	Discussion 1, Ch. 1 Quizzes
II: May 29	Ch. 2: Biology of Behavior	Discussion 2, Ch. 2 Quizzes
III: June 4	Ch. 3: Consciousness	Discussion 3, Ch. 3 Quizzes
		“Mock” Research Proposal Due June 11
IV: June 11	Ch. 6: Perception	Discussion 4, Ch. 6 Quizzes
V: June 18	Ch. 7: Learning	Discussion 5, Ch. 7 Quizzes
VI: June 25	Ch. 8: Memory	Discussion 6, Ch. 8 Quizzes
		Report on Applied Psychology Due July 2
VII: July 2	Ch. 10: Motivation & Emotion	Discussion 7, Ch. 10 Quizzes
VIII: July 9	Ch. 12: Social Psychology	Discussion 8, Ch. 12 Quizzes
IX: July 16	Ch. 13: Personality	Discussion 9, Ch. 13 Quizzes
X: July 23	Review and Study	Final Exam Due July 26
