Class Participation:

To fully benefit from the class, you must be present in the classroom. Therefore, points are obtained from class participation. Participation is defined as the student being on time for class, contributing to discussions, being aware of classroom topics and listening carefully to student comments and lectures.

I will be taking attendance at the beginning of each class. If you are late for class you will lose half of the attendance points for the day. Please make sure that I marked you as present if you come in late. Please try to stay in the classroom for the entire class as movement of students disrupts the learning environment.

The field of Psychology has been conducting research on our ability to multitask, participating in more than one activity at a time. The research has indicated that attempting to attend to more than one stimulus at a time causes us to make mistakes, lose information and experience anxiety. Therefore, I ask that you keep your phones in your bag during class, no texting or checking Facebook. We have limited time together each week, allow yourself to be in the classroom when you are here. I will ask you to put your phone away if I see it out, and will take away attendance points if attending to your phone becomes habitual.

The topics this class covers will be personally relevant to you. It is important that a safe classroom environment is maintained. To ensure that, complete respect must be exhibited to fellow students and the instructor. The topics covered require a

mature attitude be exhibited and a willingness to learn be maintained. Students should feel comfortable to make comments in the classroom and should feel a non-judgmental environment. If you have differing opinions than those expressed in class by fellow students or the instructor attempt to listen and expose yourself to varying viewpoints. We have a wonderful opportunity to learn when we have experiences outside of our norm.

If you share personal information with the class make sure you consider the implications of this prior. The classroom is not a therapy setting and confidentiality cannot be maintained. Make sure that you will continue to feel comfortable in class if you make personal disclosures.

Please keep in mind that there is a campus policy on student code of conduct in the classroom, which can be read in its entirety on the CR homepage. Failure to comply with this code will result in the student being asked to leave the classroom.

Attendance:

Please be aware that if you decide to not continue with the class you should drop the class and let me know about your decision. An Administrative procedure, (AP) 5075, allows instructors to withdraw students from class for non-participation through the 10th week of class. Non-participation includes missing 3 classes in a row and not taking tests, exams or turning in assignments. If you need to miss class due to illness or emergency please let me know what is occurring. Census date is 2/4/19, where I will be dropping students that have not been participating in class. On 3/08/19 I will again be dropping students that are not participating. The end of the 10th week is 4/5/19. Please keep me informed of anything that is interfering with your participation/attendance in this class.

Canvas:

The learning management system, Canvas, will be utilized with this course. I will be posting power points that will be used for lecture on our Canvas site. The syllabus will be there, I will use this grade book and this system to communicate with you and post supplemental materials. **You also have the option of turning assignments in on canvas.** If you turn assignments in electronically I will grade them there and you will not need to bring a paper copy to me.

Academic Misconduct:

All work that is turned in must be your own. This applies to all papers and tests throughout the semester. In an academic paper, like the research paper for the semester, you need to indicate with a citation anytime that you paraphrase, summarize, or quote someone's work. Failure to provide a citation is plagiarism. If I find that a student has plagiarized or cheated on any work the assignment will be graded as receiving zero points. Please ask me if you have any questions regarding this policy. The entire board policy can be accessed on the CR's web site and through the link provided on the cover page.

Student Success:

Research that has been done on student success has highlighted the following areas. Think about these points and how you are including this class in your life.

- Buy the textbook at the beginning of the semester and begin reading.
- Read the chapter assigned for the day before coming to class.
- Turn assignments in on time
- Know where your syllabus is and the schedule for the class.
- Know how to contact your instructor and contact her if you are having difficulties of any kind that are interfering with school.
- Take notes during class
- Take notes while reading the text- outlining the chapter and writing out the key concepts.
- Be on time for class with your cell phone off and ready to experience the class
- Have a designated study area that is distraction free.

Quizzes:

There will be two quizzes on the material from the text throughout the semester. The day of the quiz you have the option of turning in a prequiz review, which includes a completed, **quiz review (which will be provided for you prior to the quiz)** and the answers to the following questions: **1. What have you learned from this unit? 2. Why is this material important? 3. How is the material related to my life? 4. What questions do you now have about the material?** This review will count towards up to 15 points of the quiz grade. The in class quizzes will consist of multiple-choice questions. If you have a difficulty making it to class on the day of the quiz please let me know right away. No make ups will be given after the quizzes have been graded and returned, which will be the next class period.

Pop Quizzes and Classroom Activities:

Throughout the semester we will be doing group exercises, or I may ask a pop quiz question. Periodically I will collect these questions or activities and provide points for completion. These points cannot be made up, as you need to be present in class to answer the question or participate in the activity.

Exams:

There will be a midterm and a final exam this semester consisting of multiple choice and **take home** essay questions. Please bring a scan tron to these exams. They will both be cumulative and worth 150 points each. If you have a difficulty preventing you from coming to class on the day of the midterm or final please let me know right away so arrangements can be made for you to take the test in the ASC. No make ups will be given after the exams have been graded and returned, which will be the next class period.
