Required Materials

Textbook Title: No text, handouts will be provided in class.
Edition:
Author:
ISBN:
Other requirements: materials, equipment or technology skills

Catalog Description:

A lab course that applies real-life application of various psychological research methods with an emphasis on research design, experimental procedures, descriptive methods, instrumentation, and the collection, statistical analysis, interpretation, and reporting of research data. Actual data collected from research conducted during laboratory sessions will be analyzed with statistical software.

In this course we will be learning *R* which is an open access statistical program to analyze data obtained from your instructor and from data storage sites. We will also be spending time in the lab working on finding academic research, discussing research and completing a paper in APA format. The course is organized to supplement Psych 2.

Course Student Learning Outcomes:

1. Conduct scientific research in psychology.
2. Conduct analyses of the data collected in this research using statistical software.
3. Interpret the results of these analyses.
4. Communicate these research findings using APA style.

Class Participation/Attendance:

In order for you to learn the material, it is important that you interact with it, by taking part in discussions, listening to the material being presented and working on material in class. I encourage you to ask questions and offer opinions on the subject matter. It is therefore, also important that you be present at every class meeting. If you are not present at a class, please make every effort to get notes from another student, or review the notes on Canvas. The Attendance grade is put into the grade book at the end of the semester, 5 points are deducted for each absence.

Please be aware that if you decide to not continue with the class you should drop the class and let me know about your decision. An Administrative procedure, (AP)5075, allows instructors to withdraw students from class for non-participation through the 10th week of class. Non- participation includes missing 3 classes in a row and not turning in assignments. If you need to miss class due to illness or emergency, please let me know what is occurring. Census date is **2/3/20**, where I will be dropping students that have not been participating in class. On **3/6/20** I will again be dropping students that are not participating. The end of the 10th week is **4/3/20**. Please keep me informed of anything that is interfering with your participation/attendance in this class.

Communication:

The best way to contact this instructor is through email. You can utilize the communication section of Canvas or email me at my redwoods account. I will attempt to get back to you within 24 hours

Academic Misconduct:

All work that is turned in must be your own. If I find that a student has plagiarized or cheated on any work the assignment will be graded as receiving zero points. It is important that you maintain a respectful, academic demeanor when interacting with our class. Please ask me if you have any questions regarding this policy. The entire board policy (AP 5500) can be accessed on the CR's web site and through the following link:

<https://go.boarddocs.com/ca/redwoods/Board.nsf/Public?open&id=policies#>

Student Success:

Research on student success has highlights the following outcomes.

Think about these points and how you are including this class in your life.

- Know where your syllabus is and the schedule for the class.
- Know how to contact your instructor and contact her if you are having difficulties of any kind that are interfering with school.
- Take notes during class
- Be on time for class with your cell phone off and ready to experience the class
- Have a designated study area that is distraction free.

Canvas:

The learning management system, Canvas, will be utilized with this course. I will be posting materials to be used during labs for on our Canvas site in modules. The syllabus will be there, I will use this grade book and this system to communicate with you and to post supplemental materials. You also have the option of turning assignments in on canvas. If you turn assignments in electronically, I will grade them there and you will not need to bring a paper copy to me.

R- Labs: 45 points each (180 points total)

During the semester we will be using *R* for statistical analyses as indicated on the schedule. At 3 times during the semester a lab assignment will be due where you will complete graphs and analyses with data provided by your instructor. You will need to show the commands used on your lab assignment also.

Lab Assignments: 100 points

Aspects of reading, interpreting and reporting research in APA format will be reviewed during lab sessions. As indicated in the schedule there will be assignments due throughout the semester focusing on aspects of reading and writing academic research.

Presentation: 70 points

At the end of the semester you will find a data set to analyze examining a research question and hypothesis that you create. Analyses in *R* will be completed and presented as a poster during final exam time, 5/11/20.

*All assignments need to be turned in on due dates. Five points will be deducted for each day that an assignment is turned in late.
