Other requirements: materials, equipment or technology skills Computer Requirements:

Most computers and internet providers are adequate. Broadband services from cable, DSL or satellite providers are recommended. You will need to have access to the internet at least three times a week for 16 weeks. Anticipate problems with your computer and internet access early before the due date, and staying up to date. Please don't worry if you have an earlier edition of the textbook because the chapters and topics are the same but the examples, images and research are updated. I am not saying it will be a perfect match, but you should be fine in the class overall.

The essays should be free of grammatical and spelling errors and provide a thoughtful analysis of the question posed or prompt. Citing specific examples is expected.
