Assignment	Points Possible
Class Discussions	150
Quizzes	150
Midterm	75
Final	75
Research Article Questions	50
Annotated Bibliography	50
Research Paper	50
Total Points Possible	600
*Extra Credit Opportunities may be Available Throughout the Semester	

Final Grading Scale:

Percentage	Approximate Point Range	Letter Grade
90-100%	540-600	A
80-89%	480-539	B
70-79%	420-479	C
60-69%	360-419	D
Below 60%	0-359	F

Class Discussions (150 points): Over the course of the semester there will be a discussion posted to the pertaining weeks module. There may be one or two questions for you to choose from, you will only be required to answer one question prompt. You may be required to answer multiple questions to a single prompt. You will receive up to a maximum of 10 points for postings and responses to other student postings. This is an important and required part of the class. The discussion forum is accessed in Modules at the class website.

Chapter Quizzes (150 points): Each chapter has a quiz consisting of 10 multiple-choice items based on the week's lecture/discussions, lecture videos, and text readings. Quizzes will be made available at the beginning of the week and will close at the end of the week. Refer to the assignment for that week in-case you are unsure of beginning and due dates for quizzes. Each quiz will have 2 attempts allowed; your highest score will be the one that is calculated into your final grade. You need to ensure that you complete the quizzes before their due date as they will NOT be reopened except for the most extreme of circumstances (this does not include vacation or forgetfulness).

Exams (75 points each): You will only have 2 exams this semester, a midterm and a final. The final exam will NOT be cumulative and only consist of course material after the midterm. These exams will NOT be proctored or timed. You will only have one attempt per exam, please make sure you are in a quiet and comfortable area before you begin. You need to ensure that you complete both of the exams before their due date as they will NOT be reopened except for the most extreme of circumstances (this does not include vacation or forgetfulness).

Research Article Questions (50 Points): This assignment is to provide you with exposure to primary research in the field of psychology. Your instructor will provide the article for you, electronically (a hard copy can be provided upon request). You need to read the article and be able to answer the questions provided here prior to the day designated in our schedule as the date for discussion of the article. You will then need to type up your answers in a paper approximately 2 pages long, double-spaced. This paper should demonstrate your knowledge of the research process. It is worth 50 points and 5 points will be taken off for every class period it is late. Please be sure to cite your article in APA format.

Annotated Bibliography (50 Points): An annotated bibliography is an organizing tool that is helpful when working on a research project. For this assignment you will need to find 3 academic resources, I recommend you use three resources that you plan to utilize for your research paper. An effective annotated bibliography is used to compile research sources in one location and provide the researcher with quick access to the information contained in each source. I highly encourage you to pick a topic that you find interesting. There is nothing worse than researching and writing about something you find uninteresting. There are many different areas in the field of psychology, many that people don't even think about. I recommend that each annotated be about 1 - 2 pages, be sure it is in APA format with a title and references page, double spaced, in 12-point font, and in Times New Roman or Calibri font. Spelling and grammar count, be sure to review your work and make sure it is legible. If you are looking to improve your writing, have someone who has no familiarity with the concepts read your work and gauge their level of understanding. You know your job is complete when they understand the intent and purpose behind your work.

Paper and Paper Outline (50 Points): Students will write a double-spaced, 12-point font, 4-5-page research paper on a topic of their choice. Citations will be in APA style.

- Make sure you fully cover the topic in an academic manner.
- The research should be current and verifiable by author and or organization. Utilize the research tools available through the library for your research not Google/open web searching.
- The paper needs to be written in APA format, 4-5 pages, double-spaced. You can access a handout on APA formatting on the CR library homepage. OWLS at Purdue and Diana Hacker.com are also good on-line sources for help with formatting. We will discuss formatting in class.

- At least 3 academic sources need to be utilized including research articles and/or books. (Utilize the sources from your annotated bibliography).

Paper Rubric:

Content and Organization: The paper needs to adequately explain the topic and the research that was utilized in the discussion. Student needs to be able to analyze the research read and synthesize the research in the writing of the paper. The paper needs to be well organized in regard to paragraph structure, sentence structure and overall organization of paper topic.

Documentation/Credibility of sources: In text citations must be utilized according to APA format. A reference page also needs to be included fully citing the verifiable sources. Sources of information utilized for this paper must be academic ones found through library databases. Sources should be verifiable and documented by an author and/or organization. Peer reviewed sources will be helpful for you to use in your research.

Utilization of APA format: APA format needs to be utilized in the set-up of the paper including a title page, utilization of a running head, in text citations by author and date, 12 font, double space, format of reference page.

Spelling and Grammar: One point will be deducted for each spelling and grammar mistake. Please edit carefully.

In such cases where the instructor determines that a student has disrupted the educational process, a disruptive student may be temporarily removed from class. In addition, the student may be reported to the Chief Student Services Officer or designee. The Student Code of Conduct ([AP 5500](#)) is available on the College of the Redwoods website.
